

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

The Department of Architectural Science, in the Faculty of Engineering and Architectural Science at Ryerson University invites applications for a Tier 2 Canada Research Chair (CRC) in Building Science. The candidate will develop, with Ryerson University, the CRC nomination package for the April 20, 2020 deadline. Upon a successful nomination to the CRC program, the candidate will be appointed to a tenure track position at the rank of Assistant Professor, effective January 1, 2021, subject to final budgetary approval.

The incumbent will be expected to develop and maintain a strong, independent, externally funded research program that will be internationally recognized in five to ten years, mentor and support excellent diverse trainees, students, future researchers and colleagues in forms such as organizing workshops, co-authoring papers, obtaining patents, and contributing to public policy and professional practice. The incumbent will also effectively teach undergraduate and graduate courses and engage in collegial service.

Experience

Qualifications

• Candidates must have a Ph.D. degree in Building Science (Building Physics) or a related discipline

• Demonstrate sound expertise in one or more of the following related areas of Building Science: Low Carbon/Net-Zero Energy Buildings.

Sustainable Materials/Enclosures, Human Building Interaction & Building Performance

• Established a strong emerging research profile that demonstrates creativity and evidence of impact

• Demonstrated commitment to equity, diversity and inclusion in teaching and research

• Demonstrate the ability to establish and maintain an independent, externally funded research program

• Have the potential to attract diverse world-class collaborators

 $\hat{a} \in c$ Demonstrate the ability to effectively teach Building Science courses in the undergraduate and graduate programs and have the potential to contribute to course development and pedagogy

• Demonstrate the ability to participate in leadership activities in collegial internal and external service

• Professional Engineering (P.Eng.) registration may be an asset
