

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Closing Date (MM/DD/YYYY): 05/25/2020

Worker Type: Term (Fixed Term)

Language(s) Required: English

Term Duration (in months): 12

Research and writing expertise required

Provide economic and industry intelligence to support knowledge of future trends in the agribusiness and agri-food industries.

What youâ€™ll do:

- Analyze and forecast agriculture, economic and financial trends
- Research ag markets to mitigate risk and create new business opportunities
- Help lending staff build strong customer relationships by offering key economic insight
- Share economic knowledge internally and externally through a variety of communication channels

What weâ€™re looking for:

- Problem-solver who confidently manages change
- Multi-tasker with in-depth technical expertise
- Strong communicator who can translate knowledge into information analysis relevant for FCC, customers and other stakeholders
- Strategic thinker who can also build partnerships

What you'll need:

- A masterâ€™s degree in agricultural economics or economics and at least three years of research experience (or equivalent); fluency in both official languages is an asset
- An understanding of lending practices
