

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Energy, Mines and Low Carbon Innovation

This position may be performed from the following locations: Cranbrook, Kamloops, Prince George, Smithers, Vancouver or Victoria.

Geotechnical Inspector

\$68,008.54 - \$89,330.28 annually plus 6.5% Recruitment and Retention Adjustment (plus \$32.89 Bi-weekly Isolation Allowance)

The Mines Health, Safety and Enforcement Division (MHSE) provides oversight of the mineral exploration and mining sector during all stages of mine projects. The division includes the Office of the Chief Inspector of Mines, which is responsible for mining compliance oversight, mine emergency incident response, and programs required to protect the health and safety of workers and members of the public from risk factors associated with mine operations across the province.

The Geotechnical Inspector is a technical specialist, responsible for ensuring compliance to standards and legislation related to geotechnical aspects of mine site components including tailings impoundments, waste rock dumps, open pit slopes, underground workings, water management facilities and dams, geohazards and building foundations. The Geotechnical Inspector is responsible for conducting inspections, assisting in investigations and enforcement actions, and providing technical support to the mining industry, public and other government agencies.

Qualifications for this role include:

- Minimum of a Bachelor's degree in geological engineering, mining engineering or geotechnical engineering. Preference may be given to candidates with a Master's Degree or PhD in geological, mining or geotechnical engineering.
- Registration (or eligible to be immediately registered) with the Professional Engineers and Geoscientists of BC as a fully licensed Professional Engineer. Note: Immediately eligible is defined as being registered as a professional member in an applicable jurisdiction and able to transfer that current membership to a BC professional association within 6 months of employment. It is the responsibility of the applicant to have their qualifications reviewed by the appropriate body to ensure they have the necessary requirements for registration. Confirmation of registration/eligibility will be required before an offer of employment can be made.
- Minimum 3 years post-graduation experience in geotechnical engineering or mining engineering. Preference may be given to those with mining experience and those with underground design experience
- Must have a valid BC Class 5 driver's licence.
