

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Job</b>	Type: Full time	Category: Transportation

### Description

Great company. Great people. Great opportunities. United Rentals is looking for a Full-Stack Developer to join the WEDGE Remote Monitoring team. WEDGE is used to monitor, alert and control environmental conditions on industrial and residential construction sites. The successful candidate will be a skilled and versatile developer interested in working across a range of technologies from embedded firmware for wireless sensors, to back-end processing in AWS Serverless, to front-end web development in React/Redux. If you would enjoy the chance to make your mark with the world's largest equipment rental provider, consider a future with United Rentals. We'll provide the tools, the technology and the support you need to do the job right. You will also be supported by a strong management team that will help you achieve your goals. Additional duties include the following:

- Coordinate with the development and operations team to define requirements for new features
- Write technical requirements and design documentation
- Implement new features and perform developer and integration testing
- Review the existing architecture for sustainability as requirements evolve
- Identify, research, and resolve issues raised by customers
- Troubleshoot system failures and discrepancies
- Define and execute regression test plans
- Support internal and external users
- Other duties assigned as needed

### Job Requirements:

- Bachelor's Degree in computer science or engineering preferred, or equivalent work experience
- Working knowledge of React/Redux (and/or Angular, Vue), HTML, and CSS
- Some experience in C is preferred
- Localization and Internationalization experience and proficiency in French or Spanish is preferred
- Analytically oriented with strong documentation skills
- Strong oral and written communication skills

At United Rentals, the largest equipment rental company, we believe that it takes great employees to build a great organization - and we're passionate about helping our people grow professionally and embrace teamwork in everything they do. Our culture is based on our corporate values and

centers on mutual respect, job satisfaction, diversity and a shared responsibility to build a better future.
