

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

INDIGENOUS  
LINK CAREERS

Candidates must provide evidence of innovative research. This can be demonstrated, for example, via publications or forthcoming publications in relevant journals, the submitted research statement, and from letters of reference. Creating or contributing to open-source statistical software (e.g., creating and/or maintaining R packages) will also be considered. We recognize that alternative career paths and/or career interruptions (e.g. parental leave, leave due to illness, research delays due to COVID-19) can impact research achievements, and we commit to ensuring that leaves are taken into careful consideration. Candidates are encouraged to highlight in their application how alternative paths and/or

interruptions have impacted them.

We seek a colleague whose teaching interests add to, or complement, our existing departmental strengths. Candidates should have successful experience in face-to-face or online teaching. This may include having competently assisted or led the teaching of undergraduate courses, or lab/discussion sections, including as a Teaching Assistant or similar role. Evidence of a commitment to teaching should be provided through a teaching statement describing teaching experience and philosophy. The successful candidate will be expected to teach undergraduate and graduate level courses, and support the Department's graduate programs by training the next generation of scientists as part of their research program.

Candidates are expected to show evidence of a commitment to equity, diversity, inclusion, and the promotion of a respectful and collegial learning and working environment in their application materials.

### **Other**

Simon Fraser University is an institution whose strength is based on our shared commitments to diversity, equity and inclusion. Diversity is an underlying principle of our Strategic Vision, which pledges SFU to "foster a culture of inclusion and mutual respect, celebrating the diversity reflected among its students, faculty staff and our community." SFU is committed to ensuring no individual is denied access to employment opportunities for reasons unrelated to ability or qualifications. Consistent with this principle, SFU will advance the interests of underrepresented members of the work force, including Indigenous peoples, persons with disabilities, racialized persons and women; embrace gender and sexual diversity; ensure that equal opportunity is afforded to all who seek employment at the University; and treat all employees equitably. Candidates that belong to underrepresented groups are particularly encouraged to apply.

Under the authority of the University Act, personal information that is required by the University for academic appointment competitions will be collected. For further details see the Collection Notice.

### **How to Apply**

Click "Apply Now"

Applicants should provide:

- A cover letter explaining the applicant's interest in the position and addressing the full scope of the job requirements
- A curriculum vitae (include details of research and teaching)
- A concise research statement articulating current and future research plans (maximum of 2 pages)
- A teaching statement describing teaching experience and philosophy (maximum of 1 page)
- The names of 3 or 4 references, one of whom can speak to teaching capabilities.

Evaluation of applicants will commence on October 31, 2022 and will continue until the position is filled. All applications should be submitted through MathJobs.org at <https://www.mathjobs.org/jobs/list/20351>. Any general inquiries regarding this posting may be directed to Caitlin Chow at [stchsec@sfu.ca](mailto:stchsec@sfu.ca).

All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority. If you are a Canadian citizen or permanent resident, please indicate so in your application.
