

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Reliability Engineering Consultant

Position Description

This is a great opportunity to join Canada's largest Information Technology Outsourcing and Management Consulting Service Provider - a truly global company! At CGI, highly skilled and committed consultants collaborate in a fast-paced environment, on multi-functional teams, where they enjoy personal and professional development at their own pace. CGI's continuous growth is a testament to the confidence clients place in them and to the dedication of their professionals. At CGI, all employees are called members because they feel a powerful sense of ownership and accountability. Members at CGI are building their own company - in 400+ offices worldwide. CGI has the global resources, expertise, stability and skilled professionals needed to achieve outstanding results for clients - and for members; that's why an astounding 90 percent of us are CGI shareholders!

As we experience considerable rapid growth in Atlantic Canada, we need your skills, passion, and dedication on our team.

CGI is seeking a Reliability Engineer to join our growing team supporting life science clients through end to end solution offerings and professional services.

Your future duties and responsibilities

This person will shape the Observability platform to ensure it is a fit for the future. Key responsibilities will include:

- Advising and coaching clients on adopting and implementing newer methods of managing operations
- Demonstrating how to employ a more prescriptive way to run DevOps
- Blending the operations role into developers
- Maintaining a primary focus on operations and automating items to production
- Establishing SLIs and Metrics
- Aligning Metrics to objectives

Required qualifications to be successful in this role

The successful candidate will be a Software Engineer who executes in an operations context, bringing a progressive track record of collaborating in a multi-functional environment, with members of CGI and our end-clients. This position will consult and implement for CGI clients on various business and IT initiatives, in the life science sector.

- Discipline was born out of google
- Stand up Reliability Manager Discipline
- Will understand Observability platform

The successful candidate will be a Software Engineer who executes in an operations context, bringing a progressive track record of collaborating in a multi-functional environment, with members of CGI and our end-clients. This position will consult and implement for CGI clients on various business and IT initiatives, in the life science sector.

Insights you can act on

While technology is at the heart of our clients' digital transformation, we understand that people are at the heart of business success.

When you join CGI, you become a trusted advisor, collaborating with colleagues and clients to bring forward actionable insights that deliver meaningful and sustainable outcomes. We call our employees "members" because they are CGI

shareholders and owners and owners who enjoy working and growing together to build a company we are proud of. This has been our Dream since 1976, and it has brought us to where we are today - one of the world's largest independent providers of IT and business consulting services.

At CGI, we recognize the richness that diversity brings. We strive to create a work culture where all belong and collaborate with clients in building more inclusive communities. As an equal-opportunity employer, we want to empower all our members to succeed and grow. If you require an accommodation at any point during the recruitment process, please let us know. We will be happy to assist.

Ready to become part of our success story Join CGI - where your ideas and actions make a difference.
