Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Water, Land and Resource Stewardship

Multiple Locations (Hybrid)

Flexible work options are available; this position may be able to work from home up to three days a week subject to an approved telework agreement.

Quality Assurance and Testing Analyst

$73,855.42 - $84,134.34 annually plus 6.6% temporary market adjustment and $53.13 bi-weekly isolation allowance for Fort Nelson and $36.53 for Smithers

Natural Resource Information & Digital Services (NRIDS) is the information management/ information technology (IM/IT) service provider and organizational partner to the Natural Resource Ministries (NRM). As the centralized authority for all information, geospatial data, and technology across the NRM, NRIDS is leading the transformation and modernization of business practices through new and innovative technology solutions, continuous improvement projects and operational IM/IT solutions.

The Quality Assurance and Testing Analyst is responsible for leading and participating in testing new software products, enhancements and infrastructure changes. This position is also responsible for supporting and developing the planning, design and execution of test plans, test scripts and process plans for projects. The Quality Assurance and Testing Analyst ensures the integrity and quality of the ministry's information systems and services. This role will provide quality assurance expertise and guidance to all client groups, including staff, external business clients and vendors.

Qualifications for this role include:

- Degree or diploma in Computer Science/Information Technology or related field; or
- An equivalent combination of education and experience may be considered
- Minimum of 3 years of recent, related experience* in a Quality Assurance & Testing Analyst role in the information technology sector

Recent, related experience must have occurred in the last 5 years and must include the following:

- Experience providing quality assurance and test management services in a large, complex, multi-stakeholder, enterprise IT environment.
- Experience conducting consultations with clients and/or stakeholders.
- Experience leading and coordinating User Acceptance Testing (UAT) activities.
- Experience with test planning, test execution and documenting testing results.
- Experience with Software Testing Life Cycle (STLC) process.
- Experience with defect and test management tools, processes and reporting.
- Experience with creating, executing, and maintaining test scripts.
