

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Citizens&TM Services

This position can be located in any of the following locations: Victoria, Vancouver, Nanaimo, Kamloops, Kelowna, Prince George, Williams Lake, Parksville, Courtenay, Comox.

Building Technology Advisor, Security

\$87,098.87 - \$99,738.35 annually

Real Property Division (RPD) is a division within the Ministry of Citizens&TM Services which provides accommodation and real estate services to government ministries and the broader public sector. RPD provides everything needed to design, set up and manage a government workplace. Workplace Development Services is a Branch within the Real Property Division providing expert advisory services in project delivery and oversight, building technology advisory services and strategic facilities planning.

Projects managed by the Branch range from major capital new builds, large multi-year asset rehabilitation and maintenance programs to coordination and integration of tenant improvements, and client moves.

The Building Technology Advisors (BTA) function involves the timely, authoritative, strategic technical expertise within a specialized field of the building sciences. The BTA works within a team of Building Technology Advisors who together provide expertise in the fields of interior and exterior architectural elements, building envelope, mechanical systems, electrical and lighting systems, structured cabling systems, direct digital control systems and building physical security systems. The BTA has extensive experience and is an accredited professional (i.e. a professional engineer, registered architect, technologist or other specialized building system expert with additional specialized training). The BTA is a recognized expert by the clients, stakeholders, the construction industry, and the professional design community, and is the technical authority within RPD. The Building Technology Advisor provides strategic technical advice to RPD and Provincial Government clients on all aspects of the selection, evaluation, design, and application of various building technology systems. Each Building Technology Advisor addresses a specialized discipline within the building sciences and is responsible for providing strategic advice of internal or outsourced design and planning that affect building systems and fabric.

Qualifications for this role include:

• Post-secondary degree, diploma or certificate in a related field; plus 10 years current progressively more senior experience in the field of Physical Security and related experiences below; OR an equivalent combination of education, training and related experience.

Related experience includes:

• Extensive experience in planning, design, implementation, and maintenance of appropriate building systems required to support the position's discipline/area of expertise, with emphasis on institutional facilities.

• In-depth knowledge of networks and IP based systems.

• Proficient with technology tools, including web-based and enterprise-wide applications, Adobe Acrobat, and the MS suite of desktop applications.

• Experience within a service-oriented organization with commitment to client service, innovation and creativity, and a strong focus on delivering results.

• Negotiation skills with experience in facilitating and resolving conflicting goals with multiple clients, vendors, and contractors.

• CPP designation will be an asset.
