Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

<p>Come play a key role in building the future of Sports &amp; Media! Everyone wants to be part of a transformational team – and that’s exactly what we’re building at Rogers Sports &amp; Media. A team that innovates and a team that wins.</p><p>At Rogers Sports &amp; Media we are committed to creating and growing teams that are digital-first, fast-moving and bold-thinking and are focused on delivering impact with everything they do. Our impressive collection of assets includes media properties, sports teams, sports events &amp; production, venues, e-commerce platforms and a close connection with our Connected Home and Wireless team. Collectively, we touch 30 million of Canadians every month!</p><p>Not only is our business strong, but so is our culture. We genuinely care about each other and working in an environment that allows each of us to bring our best authentic selves to work. That starts with our firm commitment to a diverse, inclusive and safe workplace. We’re also dedicated to giving back by using our media megaphone to help Canadians who need it most. Our team is All IN on diversity and inclusion – find out more at www.allinforequity.ca.</p><p> As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently.</p><p>Are you up for the challenge and the fun If so, consider the following opportunity!</p><p> </p><p>We’re looking for a star candidate to join the Media Technology team in the role of Senior Systems Administrator. In this role you will be part of an all-star team of multi-disciplinary subject matter experts that will plan, design and oversee execution of technology initiatives to deliver on Rogers Sports &amp; Media’s objectives. You will act as beacons of change and as thought leaders across the organization, accelerating our business through this transformational period and beyond.</p><p>This role will cover all aspects of network and compute, and is responsible for effective architecture, provisioning, configuration and deployment of IaaS, PaaS and On-Prem infrastructure within the organization. This candidate has also participated in TOGAF technical initiatives that will help them enable continuing innovation and thoughtful design within the infrastructure. This candidate is accountable for the following systems: Linux and Windows systems

that support the operation and infrastructure of an emerging Managed Service Provider and Internet Service Provider lines of business; responsibilities on these systems include architecture, administration, and provisioning along with research and development to ensure continual innovation within the business unit.

What you will do…

- Design and uphold the foundational elements of our infrastructure – in the areas of security, identity access management, compute and storage – across both private and public cloud environments.
- Plan, design, and oversee the on-time, and on-budget implementation of strategic initiatives, ensuring there is consistency in execution as it relates to our Reference Architecture and Technology Roadmap.
- Provide expert input towards the evolution of the Reference Architecture and Technology Roadmap.
- Compile project scoping and budgeting in order to secure necessary funding of business initiatives.
- Actively participate in industry organizations and bring that knowledge to bear within Rogers Sports & Media.
- Participate in vendor RFIs/RFPs, including lab and proof of concept evaluations of new equipment, technologies, and vendors.
- Strive every day to cultivate a positive and collaborative culture that enhances the wellness of our team.
- Stay hungry for new knowledge and give back to peers and collogues by sharing freely and openly in the areas in which you have subject matter expertise.
- Managing multiple tasks of varying complexities, meeting deadlines, and working well under pressure, along with proven analytical and creative problem-solving abilities.

What you will bring…

- Experience in deploying virtualized machines, within both private and public cloud environments.
- Experience in building and supporting scalable enterprise SAN/NAS storage systems for a broad range of applications.
- A digital-first and analytical mindset.
- Possess the ability to interact across various cross-functional teams within the organization.
- Effective at challenging assumptions and leading change.
- A care for people and the world around them.
- A forward thinker with knowledge of industry standards and emerging technologies.
- Calm, confident and keen to work in a fast-paced environment.
- Ability to learn and comprehend new technologies and concepts quickly
- Strong knowledge of Microsoft Azure cloud ecosystems and service frameworks
- A superior understanding of Windows Server (2012/2016/2019) and PowerShell
- In-depth understanding of Active Directory Infrastructure, DFS, DHCP, DNS, Infoblox, SCCM, WDS, and other Microsoft Infrastructure and security services.
- Strong experience managing and administering virtualized technologies such as VMWare/VSphere 6.7 and 7.0, NSX-T, ESX, VSAN, Veeam.
- Experience with VDI - VMware Horizon View preferred but not required
- Advanced knowledge of the OSI model and networking concept (WAN/LAN/WLAN, VLAN/VRF environments).
- Strong working Knowledge in support and management of BGP, OSPF, VX-LAN.
- Superior knowledge in managing and maintaining database infrastructure such as MS-SQL, MariaDB and PostgreSQL.
- Solid understanding and knowledge of systems and network security best practices utilizing NGFW
- Experience programming and maintaining Firewalls, VPNs and related security appliances/software.
- Advanced knowledge

administrating largescale Linux production environments, RHEL, Ubuntu Server
Experience with Arista, Cisco Meraki network fabric is considered an asset.
Experience with IIS, Citrix NetScalar, NGINX load balancing technologies is considered an asset.
<p>Here’s what you can expect in return:</p>
A competitive salary and benefits that include access to our Employee Share Accumulation Program, Retirement Benefits and a variety of other perks including 50% off Rogers services and Blue Jays tickets
A manager who deeply cares about your development and long-term career at Rogers
A team that trusts and wants to win together
Smart and accomplished colleagues who are focused on both the “what” and the “how”
Flexibility to work from home even after the pandemic ends
Your choice of hardware and software (iPhone or Android/Mac or PC etc.)
As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently
<div> </div><div>What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential.
