

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Education

Description

Academic Nephrologist, Clinician Scientist Department of Medicine, McMaster University The Department of Medicine, Faculty of Health Sciences at McMaster University and St. Joseph's Healthcare invite applicants for an Academic Nephrologist to join the Division of Nephrology commencing in January, 2019. The successful applicant will have a primary focus in clinical and research aspects of heritable kidney diseases and will participate in both inpatient and outpatient programs. Clinical duties will include rotating through the in-patient nephrology service that provides MRP coverage along with a mix of CKD, ESRD and AKI patients (including acute dialysis) at all three teaching hospital sites in Hamilton for approximately 10 weeks per year. The provision of outpatient service will be comprised of a balance of new consults and follow-ups of general nephrology patients, as well as longitudinal follow-up of hemodialysis patients at two to three sites. Additionally, you will be expected to attend and provide leadership in the heritable kidney diseases clinic at St. Joseph's Healthcare. The successful candidate will complement an existing successful research group by bringing experience in genetic renal diseases to the Division. The Division of Nephrology comprises an equivalent of 16 geographic full-time nephrologists with four transplant nephrologists and two PhD researchers who are engaged in clinical practice, education and research. The Division provides tertiary nephrology and renal transplantation care to the central-west region of Ontario. The Renal Transplant Program performs approximately 130 transplants per year with over 1500 transplanted patients followed. We have a highly regarded nephrology residency training program with additional fellowship training in a number of areas including home dialysis, transplantation, and glomerulonephritis. The successful candidate will be a full-time member of the Division of Nephrology and will be expected to contribute to the academic mission of the Faculty of Health Sciences and the Division. Applicants should be certified, or eligible for certification in Nephrology, by the Royal College of Physicians and Surgeons of Canada. Candidates must have an MD or equivalent and must be eligible for licensure in the province of Ontario. Remuneration will be based on level of experience and is in line with academic Nephrologist remuneration in Ontario. Academic rank will commensurate with the candidate's qualifications and experience. Expressions of interest should include: a curriculum vitae, description of training and names and contact information of three professional referees. Please apply online via the McMaster Academic Careers website: <http://www.workingatmcmaster.ca/careers/>. Applications should be addressed to: Dr. Scott Brimble, Division Director, Division of Nephrology, McMaster University, brimbles@mcmaster.ca. We will begin reviewing applications on September 6, 2018. All qualified applicants are encouraged to apply; however, Canadian citizens and permanent residents will be considered first for this position. To comply with the Government of Canada's reporting requirements, the University is obliged to gather information about applicants' status as either Permanent Residents of Canada or Canadian citizens. Applicants need not identify their country of origin or current citizenship; however, all applications must include one of the following statements: "Yes, I am a citizen or permanent resident of Canada" or "No, I am not a citizen or permanent resident of Canada";
