Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

<p>At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment.

Because we believe connections unite us, possibilities fuel us, and moments define us.</p><p> </p><p>As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are temporarily working from home.</p><p>
Our customers&rsquo; satisfaction is our obsession and we need innovative thinkers like you to help making our customers&#39; needs become a reality. As a Senior systems Analyst, you will build strategic evolution plans along with engaging in the delivery of high quality software-based network monitoring and fault management solutions. Capitalizing on your great communication skills, you understand how to adapt to different audiences throughout many domains of the business and you are motivated by dynamic environment providing interesting development opportunities. &nbsp;You will be part of a team focussing on innovative approach for fault management systems.</p><p>&nbsp;</p><p>This is your chance to demonstrate your skills and competencies in a rapidly changing, equal opportunity environment in a large organization. We look forward to meeting with you and helping you succeed in this opportunity.</p><p>&nbsp;</p><p>Your Responsibilities</p>
You will work in an exciting fast pace environment where you will contribute with partner organizations to ensure network management and automation solutions that you are developing are solving complex technical challenges related to the monitoring of modern telecommunication networks.
Increase capabilities by integrating and adjusting the various network elements in the management platform.
Prepare and present long-term vision and product evolution roadmap
Manage the business relationships with external solution providers
Listen to customers in order to identify, understand and document needs, in line with the long-term vision
Produce technical design, develop and implement fault management and automation solutions.
Collaborate with multidisciplinary teams to define and augment the effectiveness of processes
Drive innovation by constantly re-evaluating current work practices
Drive work to completion through perfect execution
<p>&nbsp;</p><p>Skills we are looking for</p>
Fluent in French and English.
Demonstrated abilities to simplify and communicate complex situations clearly.
You have an industry recognised Computer Software engineering degree.
We are seeking an individual who is passionate about teamwork; delivering awesome customer experiences through innovative solutions
Programming skills with knowledge of databases (Java, SQL, Python).
Experience with fault monitoring and automation management systems is optional.
Knowledge of modern telecommunications networks is optional.
<p>&nbsp;</p><p>Strengths we value</p>
Strong communicator with a focus on clear verbal and written dialog
Standout colleague who has respect for other people&rsquo;s ideas, values and solutions, while achieving a common outcome
Customer focus on getting the job done in a collaborative manner while maintaining your individual accountabilities
Creative thinker with a positive outlook on problem solving and challenging the status quo
Engagement to commit to multiple projects with varying timelines and changing priorities in a dynamic environment
&nbsp;

Our people are at the heart of our success
Our customers come first. They inspire everything we do
We do what’s right, each and every day
We believe in the power of new ideas
We work as one team, with one vision
We give back to our communities and protect our environment
<div> </div><div><p>What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us!
