

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment. Because we believe connections unite us, possibilities fuel us, and moments define us. As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are temporarily working from home. We're looking for a Data Engineer and Analytics Lead as part of the Rogers Enterprise and Analytics Team to play a key role in building complex solution by turning data into actionable insights through conceptualizing, designing, developing analytical solutions as required. This role will work closely with the stakeholders and enable business units in achieving a world-class customers experience and an outstanding data management and advanced analytics capabilities. Reporting to the Senior Manager, Enterprise Data and Analytics (ED&A) Team at the Rogers Park Brampton this individual will be responsible for managing a team of Data Engineers and Data Analysts to experiment, build, test, deploy and monitor a wide range of data products. This individual will be expected to lead in the successful delivery of several simultaneous projects working collaboratively with multiple Business Units, Enterprise Architecture, Security and other IT Teams. The role must also stay on top of key industry trends in data and analytics and drive innovation within the ED&A team. What you will do:

- Accountable for the design and development of the enterprise-wide data & analytics platform to support various on-premise and cloud-based applications
- Build robust and scalable production-grade pipelines of data ingestion and model consumption, with throughout testing and CI/CD integration
- Provide consultations to business stakeholders, identify gaps and needs, strategically prioritize resources to deliver solutions
- Participate in enterprise data strategy and roadmap discussion to ensure analytics platform are built in alignment with business and IT priorities while adhering to Data Governance Framework
- Promote industry best practices in data science and data engineering, foster a collaborative culture and establish team processes to work cross-functionally with a wide range of stakeholders
- Manage a team of data scientists & data engineers, including recruitment and mentoring in response to increasing demand for advanced analytics & AI
- Manage vendors (onshore and offshore) and contractors in project delivery
- Partner with leaders in the field of big data and AI to bring best practices and cutting-edge capabilities to Rogers

What you will bring:

- Minimum of 5 years of experience in advanced data science with broad understanding of methodologies in statistics, data mining and modelling techniques
- Proficient in programming languages such as R, Python and data science tool kits (dplyr, Scipy, etc)
- Experience in big data technology such as Hadoop, Spark, Dask
- Experience in container technology: Docker, Kubernetes, AWS ECR
- Experience in version control and CI/CD tools such as bash shell, git, Jenkins
- Strong hands-on experience in cloud technology: AWS SageMaker, Lambda, S3, Cloud Formation, API Gateway, Azure ML, Functions
- Experience in Production as well as maintenance of

data movement pipeline, analytical machine learning models in the cloud environment

Familiar with agile/SCRUM/lean methodology in implementing DevOps

Strong analytical and problem-solving skills, resourceful in trouble shooting issues

Excellent organisation skills, ability to strive under a fast-paced and high-pressure environment while managing multiple projects

Schedule: Full time

Shift: Day

Length of Contract: Not Applicable (Regular Position)

Work Location: 8200 Dixie Road (101), Brampton, ON

Travel Requirements: Up to 25%

Posting Category/Function: Technology & Information Technology

Requisition ID: 221046

Together, we'll make more possible, and these six shared values guide and define our work:

Our people are at the heart of our success

Our customers come first. They inspire everything we do

We do what's right, each and every day

We believe in the power of new ideas

We work as one team, with one vision

We give back to our communities and protect our environment

What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us!
