

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment. Because we believe connections unite us, possibilities fuel us, and moments define us. As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are temporarily working from home. Come play a key role in building the future of Digital! Everyone wants to be part of a transformational team and that's exactly what we're building at Rogers Digital. A team that innovates and a team that wins. At Rogers Digital we are committed to creating and growing teams that are digital-first, fast-moving and bold-thinking and are focused on delivering impact with everything they do. Not only is our business strong, but so is our culture. We genuinely care about each other and working in an environment that allows each of us to bring our best authentic selves to work. That starts with our firm commitment to a diverse, inclusive and safe workplace. We are currently looking for Sr. Java Developer to join our Rogers Digital team. Who we are: We are Rogers, a dynamic Canadian media and telecommunications company. Innovation is our legacy and building a brilliant digital future is our mission. As a leading Canadian company, we are passionate about winning and committed to pursuing the best. This translates into everything we do, including the selection of a candidate. Rogers is currently seeking a talented and experienced person for the role of Senior Development Manager on the Digital Wireless Commerce team reporting into the Director, Wireless Commerce Delivery. The successful candidate will be part of a fast-paced development team responsible for the delivery of an exceptional online customer experience. You must be able to dive deep into the details on business, operations and engineering. What you will be doing: You are a Senior Java Developer who is passionate in coding and an expert in creating web service APIs for Digital applications. You will work with the front-end developers, and server-side developers to design and build API services for our digital platform. We strongly value deep technical skills, willingness to learn, and desire to work in an intensive, highly productive environment. What you will do: Design and develop microservices to support our digital applications. Write high quality code with proper logging, monitoring. Ensure high code quality through automated unit and functional testing. Create and review code design and architecture to ensure it can meet our requirements. Perform peer reviews and refactor regularly. Work with a team that practices agile product and software development. Collaborate with multiple teams (product and tech) across the organization. Design and recommend solutions to challenging problems. Prepare documentation as needed. 3-5 years of experience with Java development. Deep knowledge of advance Java concepts, Design patterns. Proven experience with Spring Framework. Experience developing large, complex software projects. Experience working with DevOps pipelines (Git, Jenkins), continuous integration/delivery, automated testing (unit, functional, performance). Basic knowledge of Angular, HTML, CSS, Javascript for smooth integration with UI. Strong critical thinking, analytical and problem-solving skills. Experience mentoring team members, overseeing code quality and driving best practices. Excellent communication skills. Be able to explain technical concepts to non-technical people. Strong collaboration skills. Be able to reach out and work with other teams to produce great results. Here's what you can expect in return: A competitive salary and benefits that include access to our Employee Share Accumulation Program, Retirement Benefits and a variety of other perks including 50% off Rogers services and Blue Jays tickets. A manager who deeply cares about your development and long-term career at Rogers. A team that trusts and wants to win together. Smart and accomplished colleagues who are focused on both the what and the how. Flexibility to work from home even after the pandemic ends. Your choice of hardware and software (iPhone or Android/Mac or PC etc.). As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently. Schedule: Full time; Shift: Day; Work Location: 1 Mount Pleasant WFH(084), Toronto, ON; Travel Requirements: Up to 25%; Posting Category/Function: Digital & eCommerce; Requisition ID: 232183. Together, we'll make more possible, and these six shared values guide and define our work: Our people are at the heart of our

successOur customers come first. They inspire everything we doWe do what’s right, each and every dayWe believe in the power of new ideasWe work as one team, with one visionWe give back to our communities and protect our environment</div> </div></div><p>What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us!
