

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment. Because we believe connections unite us, possibilities fuel us, and moments define us. As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently.

Sr. Manager, Development, Digital, Wireless

Come play a key role in building the future of Digital! Everyone wants to be part of a transformational team; and that's exactly what we're building at Rogers Digital. A team that innovates and a team that wins.

At Rogers Digital we are committed to creating and growing teams that are digital-first, fast-moving and bold-thinking and are focused on delivering impact with everything they do.

We are currently looking for **Sr. Manager, Development** to join our Rogers Digital team.

Who we are

Rogers is currently seeking a talented and experienced person for the role of Senior Development Manager on the Digital Wireless Commerce team reporting into the Director, Wireless Commerce Delivery. The successful candidate will be part of a fast-paced development team responsible for the delivery of an exceptional online customer experience. You must be able to dive deep into the details on business, operations and engineering.

What you will be doing

You are a seasoned leader guiding a diverse development team, working with the product team to create a new Digital experience for Rogers and Fido customers. You will play a pivotal role in partnership with our product team and bring the e-commerce experience to be the benchmark for others in the industry. You will lead and shape digital products for web platforms from infancy to adulthood.

Your role includes both technical leadership and responsibility for the growth of your team. You have experience creating web applications and services and want to apply this in a creation of a new platform. You care about the team culture. You are comfortable with complex large-scale systems and have numerous years of experience in this space.

Technologies in use will span a varied stack from Angular based front-end, to Java services on SpringBoot deployed using Kubernetes, Play/Akka services, and others.

This role is accountable for end

[illegible]

Job Title: Senior Software Engineer

Location: Remote / On-site

Department: Engineering

Reports To: Engineering Manager

Key Responsibilities:

- Design and develop scalable web applications using modern technologies.
- Collaborate with cross-functional teams to define, design, and ship new features.
