

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Date Posted</b>	From: 2019-02-15	To: 2050-01-01
<b>Job</b>	Type: Full-time	Category: Education

### Description

Assistant ProfessorDepartment of Medicine, McMaster UniversityThe Department of Medicine, Faculty of Health Sciences at McMaster University and Hamilton Health Sciences invites applicants for an Academic Physician to join the Division of Hematology & Thromboembolism as a Research Educator for July, 2019 at the Assistant Professor rank. The successful applicant will be a full-time member of the Division of Hematology & Thromboembolism and is expected to participate in a combination of clinical, research and educational activities. Clinical activities will include participation in clinical service at the McMaster-Niagara Hemophilia Program, McMaster Site, and the Thromboembolism program at the Juravinski Hospital. The McMaster-Niagara Hemophilia Program provides clinical care for a catchment area of 1.2 million people; receives patient referrals from all LINS in South-Western Ontario and follows approximately 450 patients with bleeding disorders. The program runs a weekly clinic and covers emergencies and consultation for the HHS hospitals 5 days per week, operating with the multidisciplinary team model. The Thrombosis Service at the Juravinski Hospital provides care for outpatients and inpatients with clotting disorders, with particular focus on cancer related thrombosis. The successful applicant is expected to develop an independent research line and perform activities including wet laboratory research in the field of bleeding disorders. Research activities should complement the clinical research lines already well established in the field at McMaster University. Applicants should be certified (or eligible for certification) by the Royal College of Physicians and Surgeons of Canada and must be licensed (or eligible for licensure) in the Province of Ontario. Additionally, applicants must have completed a PhD or equivalent; have specific training in the fields of pharmacology or clinical biochemistry, and fellowship training in bleeding disorders. Preference will be given to candidates who have established experience in basic research in the field of bleeding disorders, as documented by peer review publication, research grant awards and prizes. Experience in clinical management of patients with bleeding disorders would be considered an asset. All qualified applicants are encouraged to apply; however, Canadian citizens and permanent residents will be considered first for this position. To comply with the Government of Canada's reporting requirements, the University is obliged to gather information about applicants' status as either Permanent Residents of Canada or Canadian citizens. Applicants need not identify their country of origin or current citizenship; however, all applications must include one of the following statements: "Yes, I am a citizen or permanent resident of Canada" or "No, I am not a citizen or permanent resident of Canada". Please apply online via the McMaster Academic Careers website (<http://www.workingatmcmaster.ca/careers/>) directing your application to: Lorrie Reurink, Manager, Human Resources & Faculty Recruitment, Department of Medicine, McMaster University, 1280 Main Street West, Health Sciences Centre, 4V32, Hamilton, Ontario L8S 4L8.
