

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Telecommunications

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment. Because we believe connections unite us, possibilities fuel us, and moments define us. As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently. Technology Support provides 24 X 7 first and second level support for IT, application and telecommunication systems and services used internally within the Rogers Group of Companies and its vendors. The Technology Support Team continues to implement innovative tools, including a chatbot, that strive to automate tasks and reduce employee technology-related downtime. The Reporting and Automation Analyst is a fulltime position, responsible for the development and maintenance of key reporting and automation activities and systems in support of the Technology Support Team.

We are looking for someone passionate about automation and problem-solving. Detailed responsibilities include:

- Develop, integrate, and implement operational tool strategies for all platforms
- Design, develop, maintain, optimize, analyze and automate platform and services
- Troubleshoot, debug, test Solutions
- Ensure Solutions and Processes are auditable and compliant with organization Security Policy
- Meet with cross-functional teams and gather requirements

Detailed responsibilities include:

- Develop, integrate, and implement operational tool strategies for all platforms
- Design, develop, maintain, optimize, analyze and automate platform and services
- Troubleshoot, debug, test Solutions
- Ensure Solutions and Processes are auditable and compliant with organisation Security Policy
- Meet with cross-functional teams and gather requirements
- Collaborate and share knowledge with peers within Care Nation

Experience/Qualification:

- 2+ years of working experience and expert understanding of PHP and Laravel Framework
- 2+ years of working experience and expert understanding of Natural Language Understanding (NLU) such as Rasa (preferred), IBM Watson or Dialogue Flow.
- 2+ years of working experience and excellent understanding of front-end technology such as HTML, CSS, JavaScript, Webpack, and Vue
- 1+ years of experience working with MySQL, MariaDB, MSSQL, or Oracle
- Expert working knowledge of RESTful APIs
- Bilingual: French and English
- Ability to produce a variety of technical and business documents in both languages
- Experience with IT Service Management Tools such as ServiceNow
- Experience with ACD Tools such as Genesys
- ITILv3 Foundation certification
- Strong knowledge of Python and shell scripting would be an asset
- Knowledge of Power Automate (Microsoft Flow) would be an asset

Together, we make more possible, and these six shared values guide and define our work:

- Our people are at the heart of our success
- Our customers come first. They inspire everything we do
- We do what's right, each and every day
- We believe in the power of new ideas
- We work as one team, with one vision
- We give back to our communities and protect our environment

What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us! For any questions, please visit the Rogers FAQ.
