

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment. Because we believe connections unite us, possibilities fuel us, and moments define us. As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently.

Rogers is seeking a Delivery Lead within its Enterprise Data & Analytics (ED&A) team. This role requires strong leadership and technical skills around agile & waterfall delivery for data & analytics related business capabilities. The incumbent will be an integral part of the ED&A team and will ensure delivery of programs, projects, and integration of cross-functional, multi-platform application systems. The incumbent will also oversee operational activities and be instrumental in managing & communicating customer impact.

What you will be doing:

- Collaboratively manage delivery of agile and waterfall team and medium to large scale enterprise projects with complex IT architecture and landscape involving numerous vendors, clients, virtual and offshore teams.
- Actively participating in scrums and meetings and expanding the technical capabilities of the team. Lead the design and delivery of cost-effective and innovative solutions to meet business objectives while also maintaining existing applications ensuring they tie into the approved business & technology roadmaps.
- Manage and be proactive in reporting, resolving and escalating issues where required.
- Manage personnel utilization and contribute towards department capitalization

targets.

Provide operational support for issues impacting application/data availability, stability & performance. Be instrumental in managing and communicating customer impact.

Drive towards adoption and maturity towards modern and Agile ways of working.

What you have:

- Undergraduate degree or equivalent with 3+ years of experience in Managing cross functional delivery projects, Delivery, Operations or Support leadership role
- 3+ years of experience with Business Intelligence & Data warehousing projects and programs.
- 3+ years of delivery experience in an agile or hybrid model.
- Prior experience with Microsoft Azure considered a definite asset.
- Prior experience with projects involving Hadoop, SAS and Cloud data technologies is considered an asset.
- Prior Agile experience using Jira, Confluence
- Demonstrated ability to manage multiple Agile scrums and projects with increasing degree of complexity and broad scope
- Strong oral and written communication skills
- Understanding of telecom / cable information domain is an asset.

SAFe Scrum Master certification is an asset.

As a condition of hire, all new employees will be required to provide proof of vaccinations against COVID 19. Any request for an exception under Human Rights legislation must be supported by

evidence to be considered by Rogers on a case by case basis.

Together, we make more possible, and these six shared values guide and define our work:

- Our people are at the heart of our success
- Our customers come first. They inspire everything we do
- We do what's right, each and every day
- We believe in the power of new ideas
- We work as one team, with one vision
- We give back to our communities and protect our environment

What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us! For any questions, please visit the
