

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment. Because we believe connections unite us, possibilities fuel us, and moments define us. As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently.

The Rogers Finance Business Intelligence and Analytics team are critical for understanding customer behavior to identify trends, drive informed decision making and growth. The analytical insights and data our team delivers help define key indicators to measure success and the next course of action at Canada's largest telecommunication company.

We achieve this by continuously

- investing in talent to cultivate in-house innovation
- Modernizing our tools and technology
- Empowering teams to collaborate with accountability

Senior Manager of Reporting and Analytics

Reporting to the Director, BI and Analytics, you will be accountable to work with various reporting teams across the organization to provide analytical insights on the financial impact of our wireless customer activity from a revenue and subscriber base viewpoint. This includes showcasing key results with thorough data sets and intuitive dashboards. The primary area of focus is performance and trends within our existing Wireless subscriber base. The role will lead a team of talented BI professionals who oversee, enrich and provide greater visibility to the analytical capabilities of the Finance BI and Analytics team.

What you will do:

- Lead the delivery of analytical insights using data to tell the business narrative to drive critical decisions
- Lead the development of outputs in Tableau that display the results of our analytics delivering key messages in an intuitive fashion
- Build relationships with Business Leaders, Technical Leads and other key stakeholders to align on priorities, areas of focus and data presentations
- Partner with IT to lead the streamlining of processes and improve efficiencies
- Initiate and drive change by identifying areas of analytical focus that lead to results with integrity
- Drive continuous improvement on the team via experience, knowledge transfer, knowledge repository and process improvements and socialization
- Automating and establishing controls for integrity
- Ensure timely delivery of automated reports

Hands on dashboard build when demand dictates

The ideal candidate is a strong leader who has proven, exceptional communication capabilities. They will possess very strong problem-solving skills and must be able to present a strong sense of confidence, focus and leadership to other stakeholders.

Minimum of 6+ years of Telecommunications analytics experience required
