

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment. Because we believe connections unite us, possibilities fuel us, and moments define us. As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently. There is an immediate opening for a Equipment Engineering Specialist in our Hub Implementation team located at our Richmond Hill office supporting Durham region. The successful candidate will be a results oriented individual with industry knowledge and technology experience. The Specialist be accountable to develop design plans and platform capacity management based on engineering guidelines for access layer. The Equipment Engineering Specialist works very closely with the regional construction and operations teams to ensure that all required site level details are provided for the successful completion of projects. This position will focus mainly on the Access Layer Platform (DOCIS, ROD/SDV/QPSK, and HSI). In addition, the role will be accountable to the planning of all RPHY and service expansion (XGSPON) deployments in the region.

Responsibilities:

- Preparation and updating all required project documentation, creating site specific rack elevations, detailed wiring diagrams, and cable run lists
- Identification of capacity planning impacts to Network Implementation
- Ensuring that all documentation and test plans are complete
- Preparation and submission of detailed equipment lists (BOMs)
- Assisting in the coordination of timely delivery of materials to the project site
- Visiting Head End sites and completing site surveys for equipment installation
- Tracking projects to ensure deliverables are on schedule and on budget
- Providing project updates in various workflow tools and weekly Project management meetings as required
- Generating purchase orders for contractors
- Accountability for quality control of all network inventory tools supporting access layer plans
- Remain current with the latest company and industry technologies, policies and standards

Qualifications:

- Practical Head End or Data Center experience
- Knowledge of all HFC platforms and inside plant design and construction practices
- Understanding of all analog, digital and other network transport technology and systems
- Five years of CATV or related network industry experience
- Post-secondary education in Electronics or Telecommunications or equivalent industry experience
- Proficient with Microsoft Office and the associated software
- Working level ability with Autocad (Spatialnet)
- Familiar with standard computer hardware and interfaces
- Excellent written and oral communication skills
- Valid driver's license

Core Competencies:

- Adaptable to change
- Strong organizational and communication skills to understand and to be understood, have an eye for detail, and be able to put ideas into a tangible form
- Ability to work independently within a dynamic team and organize time among multiple tasks
- Ability to prioritize and manage work to project timelines in a fast-paced environment
- Ability to learn new technologies, applications and solutions

As a condition of hire, all new employees will be required to provide proof of vaccinations against COVID 19. Any request for an exception under Human Rights legislation must be supported by evidence to be considered by Rogers on a case by case basis.

Please click [here](https://performancemanager4.successfactors.com/RCI/Medical_Exemptions_to_Covid_19_Vaccination_EN.pdf) to review conditions that may qualify for medical exemption to the COVID-19 vaccine.

Travel Requirements: Up to 10%
Posting Category/Function: Technology & Engineering
Requisition ID: 250493

Together, we'll make more possible, and these six shared values guide and define our work:

- Our people are at the heart of our success
- Our customers come first. They inspire everything we do
- We do what's right, each and every day
- We believe in the power of new ideas
- We work as one team, with one vision
- We give back to our communities and protect our environment

What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us!
