Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

<p>At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment.</p><p> </p><p>Because we believe connections unite us, possibilities fuel us, and moments define us.</p><p> </p><p>As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently.</p><p> </p><p>The Enterprise Architecture team is seeking a Senior Enterprise Architect to provide architectural support for several key domains within Digital and Media channels focused on our Systems of Engagement, Systems of Intelligence and various technology platforms. Actual domain assignment will be determined at time of selection. As internal subject matter experts, Enterprise Architects are responsible for tracking technical and business trends, assessing their impact, and leveraging this information to build solutions, mitigate risks, and plan the retirement and transition of technologies at the end of their lifecycle.</p><p>The Enterprise Architect demonstrates technical leadership in project meetings, at governance body committees, and in vendor selection initiatives (RFI/RFPs). This position reports to the Director, Digital &amp; Media Architecture at the Brampton Campus.</p><p> </p><p>What you will be doing:</p>
Provide leadership and expertise in the development of standards, architectural governance, design patterns, and practices
Work with domain architects on the Enterprise Architecture team and Solution Architects in delivery teams on the implementation of an enterprise architecture roadmap for Digital and Media
Partner with various business stakeholders and technology leaders within the Digital , Media and Marketing channels to translate program requirements into scalable technical solutions and system designs
Collaborate with other members of the delivery team to evaluate solutions and gain consensus on technical solutions
Work in partnership with the delivery solution architects to design and deliver according to both the end-to-end design and the long term technical strategy/architecture for Digital and Media channel initiatives
Lead in architectural reviews of software, infrastructure, data and other relevant architecture domains
Verifying the implementation of software, ensuring the delivered systems are consistent with the agreed long term architectural roadmaps for technology domains within the Digital and Media channels
Responsible for ensuring the assigned programs follow Enterprise Architectural strategy and processes.
Responsible for ensuring alignment of solutions with Enterprise Architecture principles and guidelines
Work in partnership with program and project managers within the IT Department.
Responsible for the completeness of all program architectural, and design documentation.
Publish regular updates to domain-specific Target Architectures.
Produce and present materials to senior staff.
Publish all documents to the EA repository and maintain/enhance said repository.
<p> </p><p>What you have:</p>
Minimum of 10 years experience in technology, with at least 8 years covering Digital domains such as Digital Commerce, Search, REST APIs, Single Page Application Frameworks, Web Security, etc
Core understanding of modern front-end, back-end and cloud development

stacks
AWS and/or Azure solution architect certification is desired
Understanding of common architecture frameworks and information models. Preference given to candidates familiar with TM Forum Frameworx (TAM, SID, ETOM)
Exposure and experience with Artificial Intelligence, Machine Learning
Experience with data streaming technologies, microservices and event-based architectures
Strong understanding of GraphQL, content management systems, web analytics suites and marketing suites
Ability to assess rapidly changing technologies and apply them to business needs.
Bachelor's degree in IT, Engineering, Computer Science or equivalent experience required.
Preference given to candidates with a background in telecommunications
Advanced knowledge of business/organization, industry best practices, infrastructure, architecture and technology in related areas from an architectural solutions perspective.
Thorough understanding of the UML diagrams typically employed by enterprise and solution architects.
Can demonstrate a good understanding of architectural design patterns.
Experience with EA tools. Preference to candidates with hands-on either Sparx EA, iServer, Lucid Chart and Confluence Cloud
Ability to balance tactical needs with longer-term goals.
Ability to build consensus among diverse stakeholders.
Ability to author and present information in a clear and concise manner commensurate with the audience’s technical level.
Proven ability to problem solve, think critically and resolve complex technical/design issues
Extraordinary team player that thrives in a fast-paced environment where quality, innovation, speed of decision-making and execution are critical to organizational success.
Supports and strengthens the corporate brand and company culture.
<p> </p><p>As a condition of hire, all new employees will be required to provide proof of vaccinations against COVID 19. Any request for an exception under Human Rights legislation must be supported by evidence to be considered by Rogers on a case by case basis.</p><p>

Together, we'll make more possible, and these six shared values guide and define our work:</p>
Our people are at the heart of our success
Our customers come first. They inspire everything we do
We do what’s right, each and every day
We believe in the power of new ideas
We work as one team, with one vision
We give back to our communities and protect our environment
<p> </p><p>What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us! For any questions, please visit the Rogers FAQ.
