Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

<p>At Rogers, we connect Canadians to a world of possibilities and the memorable moments that matter most in their lives. Every day we wake up with one purpose in mind. To bring loved ones together from across the globe. To connect people to each other and the world around them. To help an entrepreneur realize their dream. A sports fan celebrate a special moment.</p><p> </p><p>Because we believe connections unite us, possibilities fuel us, and moments define us.</p><p> </p><p>As we grow our team, the well-being of our team members remains our top priority. To ensure the health and safety of our team members, including those in the recruitment process, our team members are working from home, and are equipped to do so safely and efficiently.</p><p> </p><p>Combining Wireline and Wireless views of our customer is key to providing superior insights and analytics to the organization. This position will be instrumental building an enterprise solution for the single source of truth for converged customers. The tools, systems, and processes will be developed to drive and monitor some of the key indicators used to drive business insights and decisions. (Title known internally as "Manager, BI &amp; Analytics")</p><p>
What you'll do: </p>
An individual contributor who works with business stakeholders of all levels (analysts to VPs) and represent them in the technical implementation and delivery of one source of the truth for converged customers
Develop logic and transformation rules that converts the raw data in to KPIs that will be used to manage the business
Partnering with IT and a scrum team, create and maintain an optimal data pipeline in a cloud environment that serves the business needs for insights and operations
Build dashboards and views that utilize the converged data to provide actionable insights into customer acquisition, operational efficiency, and other key business performance metrics Working with IT and the scrum team to design/setup the cloud infrastructure required for optimal extraction, transformation, and loading of data from a wide variety of data sources using ‘big data’ technologies and plan its cloud migration from on-prem. Individual contributor Be a subject matter expert on all facets of the converged data sets
Understand the Wireless and Wireline billing systems and how the customer journey is reflected within them
 <p>What you'll bring: </p>
Strong analytical skills working with structured &amp; unstructured datasets including a successful history of extracting value from large, disconnected datasets.
Advanced knowledge and 5+ years expertise with SQL, SAS along with knowledge of object-oriented scripting languages.
5+ years of experience and solid understanding of BI &amp; Data analytics in data pipeline process management, defining reporting/analytics standards, constructing interactive dashboards, developing data visualization tools, testing, and validating its data. Knowledge of ‘big data’ data pipelines, architectures, and data sets with big data tools. Experience supporting and working with cross-functional teams in a dynamic agile environment by managing a scrum team with strong project management and organizational skills.
Experience performing root cause analysis on data and processes to answer specific business questions and identify opportunities for improvement.
Must be an individual who is focused on delivering results with integrity.
Knowledge of cloud architectures and data warehouse technologies and concepts.
Degree in Computer Science, Math, Physics, Statistics, Information Systems, or another quantitative field.
<p> </p><p>As a

condition of hire, all new employees will be required to provide proof of vaccinations against COVID 19. Any request for an exception under Human Rights legislation must be supported by evidence to be considered by Rogers on a case by case basis.</p><p>
Please click here to review conditions that may qualify for medical exemption to the COVID-19 vaccine.</p><p> </p><p> </p><p>Schedule: Full time
Shift: Day
Length of Contract: Not Applicable (Regular Position)
Work Location: 1 Mount Pleasant (083), Toronto, ON
Travel Requirements: None
Posting Category/Function: Finance &amp; Accounting &amp; Financial Planning and Analysis
Requisition ID: 256444

Together, we'll make more possible, and these six shared values guide and define our work:</p>
Our people are at the heart of our success
Our customers come first. They inspire everything we do
We do what’s right, each and every day
We believe in the power of new ideas
We work as one team, with one vision
We give back to our communities and protect our environment
<p> </p><p>What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us! For any questions, please visit the Rogers FAQ.
