

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Energy, Mines and Low Carbon Innovation: Victoria

Mineral Inventory Geoscientist

The Mineral Inventory Geoscientist is a technical expert on mineral resources in British Columbia. The position liaises with industry, the general public and government clients to maximize efficient and effective use of the MINFILE database and web applications. This role conducts research on emerging theories and technologies in mineral mapping and mineral resource assessments and develops new methods for resource data collection, updating, application, and analysis.

The BC Public Service is committed to creating a diverse workplace to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

The Indigenous Applicant Advisory Service is available to applicants that self-identify as Indigenous (First Nations, status or non-status, Métis, or Inuit) seeking work or already employed in the BC Public Service. For advice and guidance on applying and/or preparing for an interview for this opportunity, we invite applicants to connect with the Indigenous Applicant Advisor Amanda by email: IndigenousApplicants@gov.bc.ca or by phone: 778-698-1336.

Qualifications for this role include:

• Registered or immediately eligible for registration, as a fully licensed Professional Geoscientist with the Engineers and Geoscientists of BC.

• Master's degree or higher in earth science or related field and a minimum of 2 years related experience*; OR

• Bachelor's degree in earth science or related field and a minimum of 4 years related experience*.

*Related experience must include mineral exploration, mining geology, geological mapping, or related, of which a minimum of two years has been in Canada.

• Experience with GIS tools, database systems, and graphic packages to produce maps and data products

• Experience managing projects and supervising contractors.

• Experience in interpersonal, oral and written communication and presentation to technical audiences.

• Experience in the compilation, evaluation, and interpretation of geology, mineral resources, mineral deposits, geochemistry, or Quaternary geology.
