Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Incident analysis and response expertise needed
Join an Agile development team accountable for delivering solutions that enable organizational change. You'll work with business partners on new feature requests and product improvements for more complex business and technical domains.
What you'll do:
- Document and execute user story acceptance tests
- Provide user story and solution support to team members
- Support investigation, analysis, and response to incidents
- Understand business needs, constraints and problems to identify solution options
- Ensure high quality of development and solution before product increment release
What we're looking for:
- Ability to understand different viewpoints of stakeholders
- Facilitate problem and solution negotiation between multiple business and IT stakeholders
- Relationship-builder and collaborator able to understand the needs of FCC's employees
- Team player who embraces change and strives to improve and innovate processes
- Detail-oriented problem-solver with a passion for building great products
What you'll need:
- Bachelor's degree in finance, marketing or commerce and at least three to five years of experience (or an equivalent combination of education and experience)
