

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

At Rogers, we are committed to helping Canadians bridge the digital divide and ensure that no one is left behind in accessing reliable connectivity. Through our Service Expansion projects, we are proud to bring our wireless and internet service to homes and businesses across the country to connect them to the people and things that matter

most. Our rapidly growing team is looking for new team members who are committed to making connectivity possible for our neighbours, communities, and local businesses. This team works cross-functionally, collaborating with our Network, Rogers for Business, and Consumer teams to make a lasting impact in underserved or unserved communities for generations to come.

Come play a key role in building the future of innovation in Canada. Are you up for the challenge and the fun If

so, consider the following opportunity:

**Program Manager**

**Wireless**

The role of the program manager reports into the HQ Project Management Office (PMO) Access Network & Operations. In this role, the PMO team works closely with key functional areas of the business (Access Network, IT, Marketing, Finance, Procurement, Supply Chain, Customer Care, R4B, Network Development, etc.) to oversee the impacts, interdependencies and timelines between functional teams and working to ensure project initiatives meet the goals and objectives set forth by the senior and executive leadership teams. This group is responsible for delivering the overall Access Network capital plans on time and within budget.

sans-serif" style="color:black">The position is both technical and managerially demanding and requires a balance of project management technical skills, highly developed analytical skills, proven managerial skills, and team development / relationship skills. You will lead individual work streams as assigned by your manager.

Responsibilities:

- Lead multiple cross-functional teams charged with implementing project objectives in addition to meeting project deadlines.
- Define project goal and objectives and develop the project management plan
- Responsible for the management of monthly CAPEX spend versus planned cost including all accrued costs
- Establish project plan baselines including scope, schedule + sequencing and dependency analysis
- Develop resource plans for all independent projects and manage budgets related to the capitalized cost of capital
- Drive project execution, governance, monitor and track all project milestones and activities required by the business including the closure of all individual projects in Oracle
- Champion of the risk planning process and ensure weekly and monthly predictability KPIs by internal and external teams /

organizations

Baseline and monthly forecasting of materials per project and adherence to inventory and working capital KPIs

Adherence to the change management process in terms of scope, budget, and time plan

Ensure the quality of all deliverables with regards to all KPIs relevant to internal and external teams / organizations

Actively manage and drive subcontractors and supporting the Procurement organization with regards to the subcontractor balance scorecard

Evaluate opportunities for synergies and innovation using thorough data analysis and understanding of key cost / revenue drivers, technology, assumptions, and scenarios.

Drive the overall integrated project plan and provide regular and routine updates to leadership, including progress, risks, and resolutions (this includes presenting to the senior leadership team from time to time as required).

Identify business / functional gaps, defining / re-engineering processes, technical solutions and developing recommendations to senior management prior to implementing plans in coordination with the business owners.

Actively assess and manage risks, issues and clearly communicate escalations as and when required. Ensure all risks, issues and escalations are brought to resolution in a timely and mutually agreeable manner.

Produce and distribute meeting agendas, presentations, thorough meeting notes and follow up on action items to resolution.

sans-serif" style="color:black">Identify and mitigate conflicts across functional areas and teams.

"font-size:11.0pt" style="font-family:Calibri, sans-serif" style="color:black">"See it, Own it, Solve it"; mentality and the ability to incrementally improve inefficient processes and ways of working
