

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Privacy and Access knowledge required

Support the design, enhancement and implementation of the organization's privacy program while providing knowledge and expertise through business consultation.

What you'll do:

- Develop and implement program strategies and deliverables to advance FCC's privacy commitments
- Conduct privacy impact assessments and make recommendations based on leading practices
- Manage privacy breaches and investigate queries
- Lead Access to Information Program (ATIP) and similar inquiries affecting FCC customers and employees
- Provide advice and guidance to the business to identify, assess, document and address complex privacy risks

What we're looking for:

- Business judgment and problem-solving skills
- Ability to be comfortable with ambiguity and advanced or complex concepts
- Excellent interpersonal skills with the ability to influence, negotiate and advocate
- Ability to connect, network and build business relationships

What you'll need:

- A degree in business or commerce and at least six years of experience (or an equivalent combination of education and experience)
- Related experience at an organization known for its privacy program is an asset
- Completion of IAPP/C certification is an asset
