

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company Interior Health Authority

Location Cranbrook, British Columbia

Date Posted From: 2018-08-29 To: 2019-02-25

Job Type: Part-time Category: Health Care

Languages English

Description

Are you a Respiratory Therapist who likes to work independently as well as participate within an interdisciplinary team? We have a great opportunity at the East Kootenay Regional Hospital (EKH) in Cranbrook, B.C.!

This is a general duty acute care position that covers all areas in the hospital, or attends external transports with the HART team. EKRH's High Acuity Response Team (HART) Program provides interfacility transportation for patients requiring advanced life support or critical care management to or from tertiary hospitals. This service brings Respiratory Therapists and Critical Care Registered Nurses by land ambulance to the hospital when a situation requires an advanced level of care. EKRH's Respiratory Therapy team is an integral part to this health care service. Transports may mean moving a critical patient from a smaller hospital within the East Kootenay Health Service Area or to Calgary or part way to Kelowna. Team members operate independently, as there is rarely overlap amongst the therapists.

There is also opportunity to train in performing pulmonary function tests. This is a casual opportunity with the ability to pick up lots of shifts. Shift types are days, evenings and nights and shift times rotate from 06:00 to 15:00, 08:00 to 17:00, 15:00 to 00:00, 00:00 to 06:00 hours. On call is required for this position.

If you are motivated to be challenged professionally, this is the move for you. We offer excellent benefits and opportunities to maximize your skills. Interior Health is an organization where Every Person Matters.

COMMUNITY PROFILE:

Nestling on sloping plains, Cranbrook faces the Purcell Mountains to the west and the Rockies to the north and east. With mild winters and more sunshine hours than any other BC city, Cranbrook has become a favoured spot to work, play, retire or raise a family.

Experience

• Recent acute care experience or recent education is preferred.

Credentials

• Current certification with the Canadian Society of Respiratory Therapists (CSRT) and eligible

for registration with the British Columbia Society of Respiratory Therapists (BCSRT) and CSRT.

• Current valid BC Driver's License

Education Requirements

• Graduation from a recognized Respiratory Therapy program.

Essential Skills

• Advanced Airway skills would be an asset.
