Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

<p>Our Rogers Finance team is at the core of our organization, supporting all of our projects across every line of business. By providing financial support and guidance, our teams rely on our Finance partners to help make strategic, data-driven decisions that will have an impact on our growth and profitability for years to come.</p><p> </p><p>Our Finance team is growing and is looking for like-minded thinkers who are passionate about telling stories through numbers to help take our investments in innovation to the next step. In turn, our Finance team is also committed to the growth and development of their team members. We offer advanced learning through Rogers Finance Transformation, support our colleagues in maintaining their professional designations, and offer a challenging work environment with fulfilling results to help balance both financial and business acumen.</p><p> </p><p>Your journey is filled with limitless possibilities, Let’s make your possible.</p><p> </p><p>We’re building a brilliant, connected future for Canadians, and we need detailed thinkers to help us deliver quality and value to our customers. As an experienced Supply Chain Data Analyst, you know how to uncover trends and tell meaningful stories through data. You collect, organize, and interpret information and work collaboratively across operations business teams to build powerful and insightful data analytics solutions.</p><p>As the Senior Supply Chain Data Analyst, you will report to the Senior Manager of Supply Chain Capabilities &amp; Analytics in a newly structured organization. We have a bold vision of developing new Supply Chain capabilities to deliver even better experiences to our valued customers. To enable that vision, we are democratizing Supply Chain data across our network, and we need individuals with a passion for collaboration and innovation. Gone are the days of traditional transactional reporting using clunky tools and stale data – join us to make an impact!</p><p> </p><p>What you’ll be doing:</p>
Perform analysis and transformation of various internal and external data sets with the aim of generating actionable insights
Provide advanced analytics to business units to help their day-to-day operations, such as inventory management, transportation, forward fulfilment, and reverse logistics
Leverage data visualization tools to represent the data in a business-friendly manner
Collaborate with key stakeholders to define and continuously improve the user experience, relevance, and effectiveness of decision support tools
Identify opportunities to leverage advanced analytics (esp. predictive) across the Supply Chain to effect better business outcomes
Support data stewardship and data governance activities and initiatives as needed
<p> </p><p>What you have:</p>
Bachelor’s Degree in mathematics, business, computer science or equivalent
3-5 years experience that demonstrates data fluency in Supply Chain and Logistics operations and processes
Experience analyzing, manipulating, transforming, and interpreting large and complex datasets (i.e., millions of rows)
Experience working with and maintaining databases, utilizing SQL to build queries
Experience with one or more current BI and visualization tools such as Tableau, Power BI, MicroStrategy, ThoughtSpot
Exceptional analytical and problem-solving skills; and highly detail oriented
Excellent interpersonal and communications skills with ability to work with cross-functional teams
Strong planning and organizational skills and ability to contribute to and support multiple projects in a high-paced performance environment
Demonstrated knowledge of the master data lifecycle, including experience with data profiling and data quality
Intermediate programming experience in

several of the following technologies: Python, R, MATLAB, Excel/VB
Previous experience with Oracle EBS an asset
<p>
As part of the recruitment process, complete a background check which includes credit and criminal checks.</p><p> </p><p>Schedule: Full time
Shift: Day
Length of Contract: Not Applicable (Regular Position)
Work Location: 1 Mount Pleasant (083), Toronto, ON
Travel Requirements: Up to 10%
Posting Category/Function: Reporting and Analytics &amp; Analyst
Requisition ID: 280180

Together, we'll make more possible, and these six shared values guide and define our work:</p>
Our people are at the heart of our success
Our customers come first. They inspire everything we do
We do what’s right, each and every day
We believe in the power of new ideas
We work as one team, with one vision
We give back to our communities and protect our environment
<p> </p><p>What makes us different makes us stronger. Rogers has a strong commitment to diversity and inclusion. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential. At Rogers, we value the insights and innovation that diverse teams bring to work. We work with our candidates with disabilities throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us! For any questions, please visit the Rogers FAQ.
