

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Our Digital & Technology team wakes up every day with one goal in mind &#211; to connect Canadians to the people and things that matter most. Collectively, we're proud to support 30 million Canadians each month. We manage a robust portfolio that champions the leading edge of technology and media. We drive projects that expand connectivity to underserved communities from coast-to-coast-to-coast; build and enhance our fixed broadband network to provide high-speed Internet, TV and Smart Home Monitoring; and support our world class wireless network, offering our customers Canada's largest and most reliable 5G network. As the Digital & Technology team, we are building our tomorrow, today. Come play a key role in building the future of innovation in Canada. Let's make your possible. Do you enjoy working on high-scale, complex, and high visibility projects and programs? If yes, consider the following opportunity: Rogers is seeking a System Planner to ensure that Rogers Outside Plant Engineering projects are completed within demanding deadlines. Reporting to the Manager of Outside Plant Engineering for Durham Region, you will be responsible for CATV design/mapping and the coordination of projects. You will demonstrate a Customer Comes First approach from project creation to completion. What you will be doing: Plan, design and coordinate projects for Coax and Fiber Network Architecture within Rogers standards and guidelines associated with new service delivery, plant upgrades and rehabilitation activity while ensuring they are technically sound, serviceable, and cost effective. Initiate necessary permits, utility applications and drawings associated with fiber/coax plant installations. Prepare cost estimates, bill of materials and other documentation for associated projects. Maintain and report on project status through Rogers project tracking system. Work co-operatively with other Planners, Construction Team and design contractors to ensure a smooth flow of information between groups. All other duties as assigned. Qualifications: Post-secondary diploma in one of the following is preferred: GIS Technology, Electronics Technology, Data Communications or Civil Technology, or an equivalent combination of experience and education. Minimum 5 years CATV or Telecom industry experience, preferably in Planning and/or Construction. Proficient in AutoCAD, SpatialNet Microsoft Excel, Microsoft Word, and Adobe Acrobat. Demonstrated ability to read and understand civil drawings. Working knowledge of CSA standards, municipal by-laws, regulatory and utility standards. Self-motivated individual with strong multi-tasking and project management skills, able to work in a fast-paced team environment. Excellent written and communication skills. Must have a valid Ontario driver's license with a safe driving record. Schedule: Full time. Shift: Day. Length of Contract: Not Applicable (Regular Position). Work Location: 301 Marwood Dr (038), Oshawa, ON. Travel Requirements: Up to 10%. Posting Category/Function: Technology & Network Design. Requisition ID: 280445. At Rogers Digital, our team doesn't shy away from big ideas &#211; we bring them to life. We work tirelessly to deliver the best user experiences (period) and build amazing self-serve experiences that our customers want to use. We are customer-obsessed agents of change and are committed to innovation and creating effortless experiences for customers and frontline employees. We use cutting-edge tools and technologies to solve critical and complex problems with award-winning solutions. Our work impacts millions of customers everyday. At Rogers Digital, we're looking for people who embrace change, take risks, and push boundaries. Learn more about our team and our work @ <https://digital.rogers.com/> Together, we'll make more possible, and these six shared values guide and define our work: Our people are at the heart of our success. Our customers come first. They inspire everything we do. We do what's right, each and every day. We believe in the power of new ideas. We work as one team, with one vision. We give back to our communities and protect our environment. Posting Notes: Digital & Technology.
