

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Our Digital & Technology team wakes up every day with one goal in mind; to connect Canadians to the people and things that matter most. Collectively, we're proud to support 30 million Canadians each month. We manage a robust portfolio that champions the leading edge of technology and media. We drive projects that expand connectivity to underserved communities from coast-to-coast-to-coast; build and enhance our fixed broadband network to provide high-speed Internet, TV and Smart Home Monitoring; and support our world class wireless network, offering our customers Canada's largest and most reliable 5G network. As the Digital & Technology team, we are building our tomorrow, today. Come play a key role in building the future of innovation in Canada. Let's make your possible. Do you enjoy working on high-scale, complex, and high visibility projects and programs? If yes, consider the following opportunity: This is a Remote role which means you get to work from

home! Our Digital & Technology team wakes up every day with one goal in mind; to connect Canadians to the people and things that matter most. Collectively, we're proud to support 30 million Canadians each month. We manage a robust portfolio that champions the leading edge of technology and media. We drive projects that expand connectivity to underserved communities from coast-to-coast-to-coast; build and enhance our fixed broadband network to provide high-speed Internet, TV and Smart Home Monitoring; and support our world class wireless network, offering our customers Canada's largest and most reliable 5G network. Do you enjoy working on high-scale, complex, and high visibility projects and programs? If yes, consider the following opportunity: Rogers is seeking a Technical

Lead supporting our digital applications for the Rogers Business portfolio ensuring all solutions are delivered on time within budget and with good quality. Reporting to the Senior Manager, at the Rogers Park Brampton Campus, you will be accountable and responsible for providing cost effective and quality solutions to projects and initiatives for our business partners. What you will be doing: Demonstrate a deep knowledge of Angular framework, and spring boot development. As part of Scrum team, propose, design, and assist in development of the digital applications. Work closely with the Developers and Tech Leads to develop and improve on code/data quality. Build and unit tests the solution leveraging our automation tools. Optimize business processes defined for a customer by leveraging Industry solutions. Help to document the Epics and User Stories during Design and work closely to guide Developers during Development and Testing Sprints. Prepares documentation, use cases, current/proposed process, workflows, data flows, process re-engineering studies, functional specifications, risk integration, end-user adoption plans/ guides and organization structures. Work with Rogers Business Unit, Go to Market teams, ERM and IT teams to develop realistic IT solution and delivery schedule while clearly stating IT scope and deliverables. Gathers and documents internal and external business user and functional specification requirements using interviews, document analysis, workshops, surveys, site visits, and task and workflow analysis in highly complex environments. Accountable for solution delivery for our business partners. Recommends and delivers solutions that increase the overall user experience. Coordinates team efforts to resolve complex issues and conflicts and escalate to executive level wherever required. Document current and future state processes, and develop technical specifications for projects and Enhancements. What you have: 5+ years of Developers Experience and 2+ years of Tech Lead. Experience with digital front end and back end technology. Strong understanding of front-end technologies such as ReactJS, HTML 5, CSS and Bootstrap, Angular JS, contentful. Strong knowledge in creating REST based web services. Strong knowledge of developing Microservice on springboot. 3+ years of experience with DevOps tools: Gradle, Jenkins, SonarQube. Experience in Docker, OpenShift, Kubernetes, and/or other software containerization. Good to have knowledge of microservice architecture. Good to have Hands-on working with Azure toolsets. Good to have past experience of Akka.

Schedule: Full time. Shift: Day. Length of Contract: Not Applicable (Regular Position). Work Location: 8200 Dixie Rd (341), Brampton, ON. Travel Requirements: None. Posting Category/Function: Technology & Information Technology. Requisition ID: 284026. At Rogers Digital, we don't shy away from big ideas; we bring them to life. We work tirelessly to deliver the best user experiences (period) and build amazing self-serve experiences that our customers want to use. We are customer-obsessed agents of change and are committed to innovation and creating effortless experiences for customers and frontline employees. We use cutting-edge tools and technologies to solve critical and complex problems with award-winning solutions. Our work impacts millions of customers everyday. At Rogers Digital, we're looking for people who

embrace change, take risks, and push boundaries. Learn more about our team and our work @ <https://digital.rogers.com/>

Together, we'll make more possible, and these six shared values guide and define our work:

- Our people are at the heart of our success
- Our customers come first. They inspire everything we do
- We do what's right, each and every day
- We believe in the power of new ideas
- We work as one team, with one vision
- We give back to our communities and protect our environment
