

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Ministry of Finance: Victoria

Senior IM/IT Project Manager

Experienced and capable in a high volume and fast paced environment, the Senior IM IT Project Manager provides project management/consulting services and plans ongoing business and technology needs consistent with government and ministry strategic plans. The successful candidate will possess communication and project management skills that prove invaluable as they meet with program managers and executive to identify how technology can be used more effectively to resolve business issues and collaboratively establish strategic plans and budgets that will drive substantive change to existing systems and business processes.

This key role is one that requires a comprehensive knowledge of project management methodologies and processes as you deliver multiple systems projects from initiation through to project closing. You are accountable for the successful delivery of complex, high risk IM IT projects, including development of all project documentation, developing strategies needed to meet agreed-upon schedule, budget and scope, risk management, leading project teams of systems professionals in defining work assignments, working with third party service providers, and facilitating stakeholder meetings/workshops.

Qualifications for this role include:

- Completion of a degree in the computer science, business administration project management or related field. An equivalent combination of education and experience may be considered.
- Minimum three (3) years' experience leading or managing complex IM/IT or business transformation projects.
- Minimum three (3) years' experience managing and overseeing concurrent projects with multiple competing priorities and timelines.
- Experience managing project teams and working with diverse stakeholders.
- Experience in the development of business cases and/or concept cases (e.g., feasibility studies, cost-benefit analysis, options papers).
