

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the FDM Career Development Program

FDM's Career Development Program is a great way for aspiring business technology consultants to enter the job market. At FDM, we train the brightest talent to become the innovators of tomorrow. Technology makes the world a better place and we believe passion, drive and curiosity are what you need to have a successful career in tech. This is why we do not require any previous experience to join FDM's Career Development Program.

FDM's two-year program begins with training in one of our technology career streams that are in high demand in the job market. We will provide you with the industry-specific technical and professional skills you need in your chosen stream, after which you will start working as an FDM Consultant with our globally recognized clients.

Upon completion of the program, many consultants see their journey with FDM culminating in an accelerated career progression, better placing them to apply for senior roles within the industry. We are currently seeking candidates interested in building a career in a range of specialties within our Business Pathway which include:

- Business Analysis
- Project Management
- Risk Regulation and Compliance

Benefits

- A chance to work for some of the most prestigious companies in the world.
- Opportunity to earn professional certifications related to your career path.
- Two-year contract in industry.
- Continuous career support and upskilling from FDM.
- Comprehensive and competitive benefits package.
- Access to a network of mentors and like-minded individuals.
- Industry recognized paid training.

Experience

About You
