

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

BC Public Service

Ministry of Forests, Lands, Natural Resource Operations and Rural Development

Fort St John

Senior Wildlife Biologist

Apply your resource management skills and make a difference in this rewarding role

Salary \$69,900.80 - \$79,791.25 annually

The Senior Wildlife Biologist implements and supports wildlife management and provides guidance to ministry staff in appropriate interpretation and application of provincial legislation, policies, regulations and external professional standards. This role encompasses developing laboratory or field studies to answer questions about species, habitats and ecosystem management or to test new theories, models and methods or approaches; leading programs and projects for the allocation, management, protection and/or recovery of species, habitats and/or ecosystems, including teams with internal and external partners; and leading the drafting of science-based reports and standards, and providing recommendations for management actions. This role requires an effective communicator with strong analytical skills.

Qualifications for this role include:

• Bachelor's Degree in biological sciences or related field, and minimum six years of related experience including field-based biological sampling, analysis and reporting, and/or providing advice within a regulatory regime.; OR

• Master's Degree in biological sciences or related field, and minimum three years of related experience including field-based biological sampling, analysis and reporting, and/or providing advice within a regulatory regime.

• Registered (or eligible) as a Registered Professional Biologist (RP Bio) in B.C. with the College of Applied Biology within six months of employment.

• Experience assessing and monitoring natural resources.

Preference may be given to applicants with any of the following:

• Experience leading staff in project or field settings.

• Experience interpreting and applying natural resource management legislation and policy.

• Supervisory experience.

• Experience engaging with First Nations.
