

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Senior Information Security Analyst / Investigator

Information Protection and Compliance

Position Location: Notre Dame Campus (Winnipeg, MB)

Full-Time Position Available

An eligibility list may be created for similar casual, part-time, full-time, and term positions

Red River College is a leader in applied learning and innovation. Our talented team of employees is passionate about education, innovation and student success. We offer competitive salaries, extensive benefits, and the opportunity for personal and professional growth in a rewarding career.

"Duties: The Senior Security Analyst/Investigator is responsible for providing highly sophisticated analytical and investigatory support for the Information Protection and Compliance area and the College at large.

This position reports to the Manager, Information Protection and Compliance, and plays a key role in any forensic audits involving staff and student activity, as it relates to the College's information systems. The incumbent will work closely with Human Resource Services, Corporate Legal Services and Security Services, when required, and is expected to maintain a high degree of confidentiality when performing investigations and providing services.

The incumbent also assists with the development and implementation of cyber security practices, products, and risk control techniques. Identifies security risks to corporate information and ensures that appropriate data security procedures and products are implemented to meet security and compliance requirements. Assists with configuration and monitoring of firewalls, servers, intrusion detection systems, and other security related mechanisms. Effective security management is necessary to protect the confidentiality, integrity and availability of the College's corporate information assets.

REQUIRED QUALIFICATIONS

- A diploma related to Information Technology; an equivalent combination of education and experience may be considered
- A current CISSP or CISM or CISA or CRISC or GSEC certification
- Significant experience working in an enterprise information technology environment including progressively increasing levels of responsibility
- Demonstrated experience with a broad range of information technology areas including; network communications, network operating systems, application development, and desktop operating systems and cloud computing
- Demonstrated experience in the development and maintenance of the procedures and processes required to manage and respond to security incidents
- Demonstrated experience with enterprise level information security hardware, software tools, programs and forensic techniques
- Demonstrated experience conducting structured information risk assessments using established cyber security framework processes such as ISO, NIST, CIS and COBIT
- Demonstrated experience with digital forensics including the examination of computers and other digital devices, digital evidence recovery, analysis and preservation as related to forensic investigations or security incidents
- Demonstrated experience developing information security policies, standards, guidelines or procedures

- Excellent problem solving and investigative skills
- Excellent project management and organizational skills
- Excellent oral and written communication skills
- Excellent interpersonal skills
- Excellent oral and written communication skills
- Demonstrated experience in the development and maintenance of the procedures and processes required to manage and respond to security incidents
- Values Diversity, Equity, and Inclusion
- Commitment to lifelong learning

ASSET QUALIFICATIONS

- Experience working in a post secondary education sector
- Formal training in recognized change management principles

CONDITIONS OF EMPLOYMENT

- Applicants must be legally entitled to work in Canada
- This position may be required to work evenings and/or weekends
- Incumbent must provide a current and satisfactory Criminal Records Check
- This position may be required to travel
- This position may be required to work overtime
- Valid Manitoba Driver's License

How to Apply

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions and must identify the competition number they are applying for in the subject line of the email

Apply to Red River College by email: humanresources@rrc.ca
