

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the Opportunity

We are looking for an intermediate Civil Engineering Technologist to join our Edmonton team of professionals providing quality services to our clients within Edmonton and the surrounding areas. Are you looking to make a move to an organization that supports growth and development, flexibility and mentorship opportunities Let's connect!

This is an exceptional opportunity to join a highly collaborative environment working alongside our team of planning, engineering and community consultants. Our design technologist team is an essential part of our practice and our ability to deliver excellent service. You will be working to complete designs from high-level conceptual through to detailed design drawings. Specifically, you can expect to be involved in:

- Carrying out drafting and design assignments
- Communicating with team members and project leaders
- Supporting design, drawing production and/or construction specifications
- Ensuring quality control of both design and drafting production work
- Performing field inspections during construction projects
- Performing a variety of defined assignments with guidance from team members
- Advising the team on technical problems and troubleshooting
- Promoting and instilling a sense of collaboration among members

Experience

Our ideal candidate will be a graduate of an accredited Civil Engineering Technology program, EDDT, or equivalent with a minimum of 4-years of experience. Given the variety of project needs and a desire to find the right person to fit within our team, we will consider candidates with a range of experience, education, and background in land development, transportation, and/or municipal infrastructure detailed design and production.

Essential Skills

In particular, we are looking for the following skills, strengths and interests:

- Excellent drafting skills with good knowledge of drawing set-up and production
- Proficiency in Civil 3D (required)
- Proficiency in or willingness to learn Infracore (required)
- A keen eye for detail and take great pride in your work, both the large and the small projects
- Effective communication and writing abilities
- Committed to ongoing personal and professional development
- Ability to travel for work on site
- Certification or eligible for certification with ASET AB
- A desire to expand your previous exposure to construction and field services work

Work Environment

At Urban Systems:

> We are community consultants, brought together by our shared values, and a deep commitment to building vibrant communities.

- > We're local, connected and invested in our communities.
- > We're built on relationships.
- > Curiosity and the pursuit of vibrancy inspires us.
- > We care, and it's reflected in the work we do and in our culture.
