Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

There are currently two positions available. Remote work is allowed, this position can work up to full time from their home in British Columbia subject to an approved telework agreement.

The Modernization Advisory Services team supports program areas across government to adopt modern, digital ways of working. We provide custom advice, mentorship, and research insights to enable creation and sustainment of cross-functional continuous service improvement teams. The teams we build learn to use Agile methods and modern technology to improve services for the people of British Columbia.

As a Senior Advisor, you have a breadth of expertise and thrive in an ever-changing, complex environment. This role is responsible for collaboratively designing, building, and implementing programs, products, and services for priority Exchange Lab partners in Residence. The Senior Advisor also contributes guidance and mentorship to peers across the digital service delivery network in government.

The BC Public Service is committed to creating a diverse workplace to represent the population we serve and to better meet the needs of our citizens. Consider joining our team and being part of an innovative, inclusive and rewarding workplace.

For information about the Indigenous Applicant Advisory Service, please visit: Indigenous Applicant Advisory Service - Province of British Columbia (gov.bc.ca).

Experience

- At least 3 years experience in the direct application of agile methods for service delivery involving the development of technology products.
- At least 3 years experience working in teams using human-centered approaches, including direct research with people who will use the service.
- At least 1 year direct experience facilitating change for individuals and organizations towards more open and collaborative practices.
- Experience facilitating group process.

Education Requirements

- Related Bachelor's degree in a technology discipline, public administration, digital governance and/or human-centred design. A combination of education and experience may be considered.
