

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

- Oversea organizational change activities that align with the target operational model

- Plan, coordinate, lead/oversee and communicate the activities to ensure that project objectives are met

Ensure good management of activities, quality results and implementation of CGI quality processes

- Manage the project or scrum teams associated with the initiative, providing guidance and oversight, connecting and collaborating with team leads and Scrum Masters as appropriate

- Complete various activities to deliver projects using MS tools to coordinate project plans, work plans, risk logs, communications plan, issue logs and resolution as well as manage Statements of Work and associated Change Requests for high profile client work

- Balance the management of projects by mitigating risks and defining resolution plans for addressing issues, proactively managing risks and issues

- Deliver expected project margin/profitability

- Obtain engagement and approvals by all players: clients, team members and vendors

- Effective client relationship management, ability to deal with partners at all levels of the organization, including client executives with professionalism and discernment

- Obtain, validate and understand the cost models and project profit margins for all assigned projects

- Define functional structure of the project; prepare work plans for planning and scheduling of required resources

- Ensure projects are auditable and audit ready, adhere to CGI policy and contractual requirements

Required qualifications to be successful in this role

Essential Qualifications

- 8+ years of Project Management experience within IT

- Proven experience working with multiple clients on IT project-based initiatives.

- Excellent skills and knowledge of servant leadership, facilitation, situational awareness, conflict resolution, continual improvement, empowerment, and growing transparency

- Superb communication and presentation skills in providing pertinent and detailed information to clients and delivery / operational teams

Desired Qualifications

- Demonstrated experience coordinating and facilitating information sessions, working sessions, and Steering Committees

- Familiarity with the retail, manufacturing and peripheral sectors

Education and Certification

- Bachelor in Computer Science, Masters in Project Management or equivalent

- Certified Project Manager (PMP) certification
