

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company	CEDA	
Location	Edmonton, Alberta	
Date Posted	From: 2020-01-09	To: 2050-01-01
Job	Type: Full-time	Category: Engineering

Description

As a Site Manager you'd be responsible for the oversight and safe execution of field projects. Your background in turnaround activities helps you adapt to multiple projects with multiple service lines including Mechanical Chemical Cleaning and Pressure and Vacuum. Key Duties & Responsibilities

- Responsible for hiring and managing the performance of personnel on site
- Act as a leader for superintendents - this means you technically know the work and are able to influence those around you
- Ensure adherence to all company HSE standards, policies and procedures and up to date knowledge of local, provincial and federal guidelines for full compliance.
- Keep everyone in the know - meet the client and internal reporting requirements
- Change management - you excel at this part of project management
- Keep things moving for the client and for CEDA - be responsible for the identification and development of change orders
- Coordinate and manage work activities of multiple sub-contractors, monitor, measure, check and correct
- Collaborate with operations and the customer to help turn problems in to solutions
- Exercise your technical side - support engineering and design to ensure all technical specifications and requirements are met
- Works with the project planner /production engineer to develop production schedules and then executing construction operations to meet schedules and project plans
- Other duties as assigned

Role Specifications

- 5+ years experience leading turnaround/shutdown events
- 3-5 years experience with P&L responsibility
- You speak in 'earned value' and can easily generate P6 schedules
- PMP designation helpful but is not required
- Bachelor's degree in engineering or a trades background is ideal
- Experience using P6 is an asset but not required

Personal Characteristics

- You're used to being up close and personal with your projects in the field and know the satisfaction of coming in on time and on budget
- You're happy to leverage your extensive background - CEDA has a variety of service lines and serves a variety of markets
- You're structured and self-reliant in all projects - you like when the boss gives you freedom because you can effectively communicate up

The above statements are intended to describe the general nature and level of work being performed. They are not intended to be an exhausted list of all responsibilities, duties and skills required.
