

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Risk management experience required

Identify operational risks in FCC processes and provide evaluations for management on the effectiveness of process controls.

What you'll do:

- Facilitate risk and control assessments on new and existing business processes
- Maintain relationships with a portfolio of business units
- Advise on risk governance structures, applying the three lines of defence model
- Monitor standards for business process documentation

What we're looking for:

- Problem-solver with strong analytical skills
- Relationship-builder with proven facilitation and communication expertise
- Team player who can work independently

What you'll need:

- A bachelor's degree in business, professional accounting designation and at least three years of related experience (or an equivalent combination of education and experience)
- Knowledge of risk control assessment processes, governance and management theories, practices and trends
