Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About Toronto Metropolitan

At the intersection of mind and action, Toronto Metropolitan University is on a transformative path to become Canada’s leading comprehensive innovation university. Integral to this path is the placement of equity, diversity and inclusion as fundamental to our institutional culture. Our current academic plan outlines each as core values and we work to embed them in all that we do.We welcome those who have demonstrated a commitment to upholding the values of equity, diversity, and inclusion and will assist us to expand our capacity for diversity in the broadest sense. In addition, to correct the conditions of disadvantage in employment in Canada, we encourage applications from members of groups that have been historically disadvantaged and marginalized, including First Nations, Metis and Inuit peoples, Indigenous peoples of North America, racialized persons, persons with disabilities, and those who identify as women and/or 2SLGBTQ+. Please note that all qualified candidates are encouraged to apply; however, applications from Canadians and permanent residents will be given priority.In April 2022, the university announced our new name of Toronto Metropolitan University, which will be implemented in a phased approach. Learn more about our next chapter.The team

Computing and Communications Services (CCS) is Ryerson's central IT organization, supporting the university’s voice and data communications, learning management system, computer labs, application support, web application development, streaming media services, presentation technology-enabled classrooms and much more.

We are extremely proud of our university and what we are accomplishing as a department. We welcome you to get to know our people and services better before you decide to apply to join our team. Visit us at http://www.ryerson.ca/ccs/ and search @RyersonU and @bdlesser on Twitter.The Perks There is something for everyone! Employees are eligible for many benefits, services and discounts that Ryerson has to offer:

- Group benefits including comprehensive health and dental, emergency travel care, employee and family

- assistance program (EFAP), life and business travel accident insurance and participation in the Ryerson Retirement Plan (RRPP) a defined benefit pension plan.

- Employees can also participate in the tuition waiver program which provides eligible employees and their spouses and dependents with access to the various programs and courses that Ryerson offers.

- Reduced membership rate to the Recreation and Athletics Centre (RAC) and the Mattamy Athletic

- Centre (MAC) which includes group fitness classes, massage therapy, personal training and aquatics.

- Access to the Ryerson medical centre which provides a range of medical services on campus.

The Opportunity

Toronto Metropolitan University’s Student Information System group provides support, maintenance and enhancements to the University’s implementation of Oracle’s PeopleSoft Campus Solutions system, known here as Ryerson's Administrative Management Self Service (RAMSS).Your responsibilities will include the design, implementation, and maintenance of a robust and secure system. You will work closely with the Registrar’s Office and other CCS staff to design, customize, test, implement, upgrade, and support Campus Solutions, its interfaces and integrations providing a secure IT infrastructure for Ryerson employees who require integrated systems to perform their administrative work efficiently.Qualifications Post secondary degree in Computer Science, an equivalent engineering or mathematics degree may be considered.

- Minimum of 5 years’ experience supporting large complex PeopleSoft applications, three of which must be in a senior level position.

- Extensive training/specialization is required in PeopleSoft/Oracle programming including People-Code, People-Tools, Application-Engine, Application-Designer and SQR.

- Ability to act as a Lead Hand to coordinate fulltime and contract application developers/analysts in the design, implementation and testing of Campus Solutions components, patches, fixes, bundles, customizations and upgrades. This will include code development using SQL, App-Engine, App-Designer, People-Code, SQR, Java, Cobol, shell scripts and other languages as needed; inter-instance project migrations; loading/configuring software on servers and developing/supporting inter-systems interfaces using PeopleSoft Integration Broker / Web Services.

- Experience with PeopleSoft Campus Solutions is preferred. In lieu of experience with PeopleSoft Campus Solutions, experience with one or more of PeopleSoft HCM, Financials, or CRM is required. Experience with Web-enabled Self Service is a requirement.

- Desirable technical expertise include Web Services, Integration Broker, Oracle RDBMS,Unix, Windows, Shell scripting, Java, SQL, HTML, perl, Cobol and troubleshooting in production environments.

- A demonstrated commitment to client service - specifically to students, staff, faculty and external contacts.

- Excellent oral and written communication skills to prepare complex manuals and present in-house courses/lectures.

- Excellent interpersonal skills including tact and diplomacy.

- Strong organizational skills are critical.

- Good analytical skills are required to evaluate materials, make decisions and problem solving.
- Ability to work with minimal supervision; experience working as a lead hand.
Notes:
- This is a Full Time Career Equivalent Position (FTCE)
- Candidates may be asked to demonstrate qualifications through testing, as a first step in the process prior to being granted an interview or after the first interview stage.
- Candidates must have a demonstrated record of dependability/reliability and a commitment to maintain confidentiality. *
