

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About Toronto Metropolitan

At the intersection of mind and action, Toronto Metropolitan University is on a transformative path to become Canada's leading comprehensive innovation university. Integral to this path is the placement of equity, diversity and inclusion as fundamental to our institutional culture. Our current academic plan outlines each as core values and we work to embed them in all that we do. We welcome those who have demonstrated a commitment to upholding the values of equity, diversity, and inclusion and will assist us to expand our capacity for diversity in the broadest sense. In addition, to correct the conditions of disadvantage in employment in Canada, we encourage applications from members of groups that have been historically disadvantaged and marginalized, including First Nations, Metis and Inuit peoples, Indigenous peoples of North America, racialized persons, persons with disabilities, and those who identify as women and/or 2SLGBTQ+. Please note that all qualified candidates are encouraged to apply; however, applications from Canadians and permanent residents will be given priority. In April 2022, the university announced our new name of Toronto Metropolitan University, which will be implemented in a phased approach. Learn more about our next chapter. The team Zone Learning uses experiential learning to allow students to apply their degree coursework to real world startups, causes, companies, projects or ventures. Members gain career-ready skills and experiences for the 21st-century workplace by initiating their own projects or contributing to existing ventures involving faculty, business and community partners. Zone Learning puts participants at the forefront of emerging markets to develop new products, explore innovative solutions, or embark on ventures to change the world, encouraging them to develop an entrepreneurial mindset.

Our 10 zones – each with a focus on a different industry – are incubators where people come together to brainstorm, kickstart projects, and build startups. Each offers one-on-one mentorship from experts as well as access to state of the art workspaces and technologies allowing members to grow their network, gain experience, build their resume and even access funding. Zone Learning is also home to the DMZ, the top-ranked university incubator in the world. With over 450 startups incubated each year and more than \$560M in funding raised, the Zone Learning network offers participants the opportunity to shape initiatives from the ground up gaining real world experience through entrepreneurship.

Beyond our 10 zones, Zone Learning is also committed to promoting and supporting initiatives that will make regional or national impact. Some of these include Lab2Market, the first national-level program in Canada to fund and equip graduate students with the entrepreneurial skills needed to assess the commercial viability of research innovations, the Brampton Venture Zone, which supports the growth of new business, by creating high-skilled jobs, building a talent pipeline, and solidifying Brampton's standing as a global hub of innovation and DMZ Innisfil, which, in partnership with the Town of Innisfil, provides the town's growing startup community with exclusive resources and access to a network of partners, customers and investors.

The Opportunity

The Design Fabrication Zone is in search of a Startup Experience Coordinator who will work with the Manager in

planning and implementing an overall member experience strategy for the Zone and Creative Innovation Studio (CIS), to include relevant programming for entrepreneurs, community members and students. You will assist in monitoring the progress of the clients from application through to graduation, and in ensuring continual improvement of startup programming, member benefits, service offerings, mentorship and strategies based on entrepreneur feedback and industry best practices.

Working with the Manager, you will develop and execute relevant metrics and reporting strategies to satisfy the stakeholders and quantify the Zone's impact on the University and overall economy. You will also be responsible for coordinating the advisor and student programs, including support for the in-house advisors and Entrepreneurs-in-Residence (EiR) team. Qualifications

To help us learn more about you, please provide a cover letter and resume describing how you meet the following required qualifications:

- Completion of a post-secondary degree in Business, Design, Architecture, Entrepreneurship or a related field.
- A minimum of two (2) years of relevant experience in a program management/ entrepreneurship sector, with experience in administration, relationship management, conflict resolution, engagement and event planning.
- Knowledge of design and/or advanced manufacturing is an asset;
- Analytical and research skills;
- Entrepreneurial skills and knowledge of best practices;
- Project and financial management knowledge;
- Understanding of the current design, technology and innovation landscape;
- Oral and written communication skills.
