

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About Toronto Metropolitan

At the intersection of mind and action, Toronto Metropolitan University is on a transformative path to become Canada's leading comprehensive innovation university. Integral to this path is the placement of equity, diversity and inclusion as fundamental to our institutional culture. Our current academic plan outlines each as core values and we work to embed them in all that we do. We welcome those who have demonstrated a commitment to upholding the values of equity, diversity, and inclusion and will assist us to expand our capacity for diversity in the broadest sense. In addition, to correct the conditions of disadvantage in employment in Canada, we encourage applications from members of groups that have been historically disadvantaged and marginalized, including First Nations, Metis and Inuit peoples, Indigenous peoples of North America, racialized persons, persons with disabilities, and those who identify as women and/or 2SLGBTQ+. Please note that all qualified candidates are encouraged to apply; however, applications from Canadians and permanent residents will be given priority. In April 2022, the university announced our new name of Toronto Metropolitan University, which will be implemented in a phased approach. Learn more about our next chapter. The team We are a team of human resources experts and innovators who contribute to the achievement of Toronto Metropolitan University's strategic priorities. We create a workplace culture that puts people first. We partner with each other and the TMU community to create and deliver outstanding practical and strategic human resources solutions, programs and services. At TMU, compensation extends beyond just a monetary amount. The Total Compensation team within the HR group works to ensure the internal equity and external competitiveness of TMU's total compensation package by providing advice and assistance on a wide range of compensation topics including salary, recognition and awards and organizational structure. You can find out more about our people's first philosophy and values by reading about who we are and what we do.

The Opportunity

Are you looking to be a part of a **HR** team? Are you a dedicated HR professional who is passionate about equity, diversity and inclusion? If so, we have just the right opportunity for you. As a Compensation Specialist, you will be responsible for managing the job evaluation process and related compensation activities for a portfolio of assigned academic and administrative departments. You will provide analytical and technical expertise for various compensation related matters, lead / participate in compensation projects and initiatives, and support the development, implementation and maintenance of total compensation policies, programs, systems and processes for the University's unionized and non-unionized employee groups. You will also administer and maintain various compensation-related data management systems. As part of the Compensation team, you will also be involved in the TMU's transformational journey of the HR department as well as for Total Compensation transformation to support an exceptional employee and client experience and deliver on HR's commitment to continuous improvement, which will provide exposure on innovative practices, and opportunities for new learning and growing. Qualifications

To help us learn more about you, please provide a cover letter and resume describing how you meet the following required qualifications:

- Completion of an undergraduate degree in business administration with human resources concentration or a related

field.

- A minimum of 3 years of experience in the compensation field including but not limited to job evaluation, compensation consulting, compensation surveys, annual compensation cycle, pay for performance, complex compensation research, data modeling and analytics, and creating meaningful reports to support compensation decision making.
- Experience leading and / or supporting concurrent compensation projects.
- Experience working in a fast paced unionized environment.
- Knowledge and understanding of various compensation related legislations and regulations.
- Knowledge of job analysis and job evaluation principles, methods, and procedures; ability to analyze and evaluate job content and writing accurate job descriptions.
- Strong interpersonal and communication skills and the ability to work effectively with a wide range of constituencies in a diverse community.
- Strong organizational skills, including effective records and data management skills.
- Numeracy skills, project management skills.
- Demonstrated proficiency using spreadsheet and statistical applications for complex data analysis, producing insightful reports.
