

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About Toronto Metropolitan

At the intersection of mind and action, Toronto Metropolitan University (TMU) is on a transformative path to become Canada's leading comprehensive innovation university. Integral to this path is the placement of equity, diversity and inclusion as fundamental to our institutional culture. Our current academic plan outlines each as core values and we work to embed them in all that we do. TMU welcomes those who have demonstrated a commitment to upholding the values of equity, diversity, and inclusion and will assist us in realizing the benefits of embedding these values into the work at every level and in every unit of the university. In addition, to correct the conditions of disadvantage in employment in Canada and to bring lived experiences to the work, we encourage applications from members of equity deserving groups that have been historically disadvantaged and marginalized, including First Nations, Metis and Inuit Peoples in Canada, First Nations Peoples in the United States, racialized people, Black people, persons with disabilities, women, and 2SLGBTQ+ people. Preference will be given to candidates with lived experiences as people from equity deserving groups, as well as experience working with these communities with which the University works every day. Please note that all qualified candidates are encouraged to apply and we welcome newcomers and immigrants to Canada. In April 2022, the university announced its new name of Toronto Metropolitan University. Learn more about our next chapter. The team Toronto Metropolitan University's Facilities Management and Development (FMD) department involves care of the physical environment of the campus and strategic planning for existing and future spaces, including the impacts of those spaces. FMD is responsible for functions including Environmental Health and Safety, Facilities Services, Maintenance and Operations, Planning and Development, Project Management Office, Real Estate, and Sustainability.

The Opportunity

Are you a plumber journey person who is looking for a rewarding and stable career in the trades with a defined schedule and commute? At TMU you get to enjoy the weekends and also enjoy a comprehensive benefits package, pension and tuition waiver benefit for you and your direct dependents. Do you take pride in your work? How about joining a leading University and contributing

to providing a safe and functional space for our students, staff and faculty We look forward to your application. The Plumber undertakes regular inspections, preventive and corrective maintenance, modifications, repairs and adjustments to piping and components of water, gas, air and vacuum services including waste and drain services in washrooms, laboratories and mechanical plant spaces. They complete plumbing service requests from campus clients. Here are some things you can expect to do in your role:

- Lays out, assembles, installs and repairs pipes, fixtures and fittings used for water distribution, waste disposal and gas distribution according to plumbing and gas codes.
- Installs and repairs piping valves and fittings made of metals such as iron, steel, lead or copper and non-metallic materials, such as plastics, glass or vitrified clay.
- Joins pipe sections using fittings, couplings, elbows, solder, lead, screws, bolts and clamps; secures pipes in position using brackets and hangers.
- Installs domestic plumbing fixtures such as water closets, wash basins and baths, industrial plumbing fixtures, kitchen equipment and photographic processing equipment.
- Maintains and repairs installed plumbing systems by tracing and rectifying defects, replacing broken pipes and fixtures, soldering and caulking leaks, clearing plugged waste pipes and traps and thawing frozen lines.
- Undertakes a comprehensive preventive maintenance program and ensures that proper maintenance cycles are maintained and data given to the Supervisor.
- Under the direction from the Supervisor, Maintenance and Operations undertakes preventive maintenance and replacement of components such as valves, strainers, traps, of installed piping systems involving hot water heating and low pressure steam, chilled water, etc., forming part of the physical plant distribution system.
- Undertakes modification, replacement and major repair of piping and components such as valves, traps, strainers etc., in the boiler plant, chiller plant, fan and mechanical rooms etc. under the direction of the Supervisor, Maintenance and Operations.
- Completes bills of material, estimates, sketches and other documentation as required.
- Ensures good client relationship with prompt responses.
- Cooperates with other trades to ensure that assignments are completed in the most efficient manner.
- Has a working knowledge of the Ontario Gas and Plumbing Codes and the Occupational Health and Safety Act and follows safe work practices while undertaking duties.
- Responsible for the maintenance and repair of sprinkler and fire lines.
- Undertakes modification, replacement and repair of pneumatic piping.
- Repairs and maintains air compressor piping, pressure reducing valves and fittings associated with them.

Qualifications

To help us learn more about you, please provide a cover letter and resume describing how you meet the following required qualifications:

- Successful completion of current Ontario licenses for Journeyman Plumber and Gasfitter.
- A minimum of 3 years work experience as a licensed Journeyman Plumber and Gasfitter in the maintenance of building plumbing and heating systems, preferably in an industrial, commercial or institutional facility.

- Experience reading and interpreting specifications, drawings, blueprints, and diagrams, for building plumbing services.
- Working knowledge of the Ontario Plumbing and Gas Codes.
- Working knowledge of WHMIS and OH&S Act.
