

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

#### About Toronto Metropolitan

At the intersection of mind and action, Toronto Metropolitan University (TMU) is on a transformative path to become Canada's leading comprehensive innovation university. Integral to this path is the placement of equity, diversity and inclusion as fundamental to our institutional culture. Our current academic plan outlines each as core values and we work to embed them in all that we do. TMU welcomes those who have demonstrated a commitment to upholding the values of equity, diversity, and inclusion and will assist us in realizing the benefits of embedding these values into the work at every level and in every unit of the university. In addition, to correct the conditions of disadvantage in employment in Canada and to bring lived experiences to the work, we encourage applications from members of equity deserving groups that have been historically disadvantaged and marginalized, including First Nations, Metis and Inuit Peoples in Canada, First Nations Peoples in the United States, racialized people, Black people, persons with disabilities, women, and 2SLGBTQ+ people. Preference will be given to candidates with lived experiences as people from equity deserving groups, as well as experience working with these communities with which the University works every day. Please note that all qualified candidates are encouraged to apply and we welcome newcomers and immigrants to Canada. In April 2022, the university announced its new name of Toronto Metropolitan University. Learn more about our next chapter. The team Part of Student Wellbeing, the Academic Accommodation Support (AAS) team facilitates and supports accessibility and inclusion through education and academic accommodation for the diverse mix of students with disabilities in order for each to fully participate in their academic experience at Toronto Metropolitan University. TMU students with disabilities connect with AAS services to learn about and implement individualized academic accommodation plans while also exploring learning strategies, assistive technology, and other resources that can support them in more fully participating in their studies. The Learning & Assistive Technology Strategist (LATS) is part of the Inclusive Learning team within AAS and reports to the Manager of Inclusive Learning. The LATS collaborates with their Inclusive Learning team members to explore creative approaches to supporting inclusive learning practices within the TMU community.

#### The Opportunity

The Learning & Assistive Technology Strategist is responsible for supporting students with disabilities to integrate learning strategies (LS) and assistive technology (AT) into their learning environments through individual appointments and group programming such as workshops. During one-on-one appointments, the LATS uses a student-centered approach to explore and offer guidance and training on learning strategies and assistive technology tools to help students develop an approach to their studies that is tailored to their accessibility needs. The incumbent is responsive to individual student needs and prepared to discuss: procrastination, motivation, time management, reading, writing essays, studying for and writing tests, note-taking, and assistive technology with students. In collaboration with the Inclusive Learning team, the LATS guides service delivery and program planning by drawing from the lived experiences of students with disabilities, evidence-based resources from a variety of disciplines, and the social issues affecting students today.

Additionally, the successful candidate will promote and act as a resource to students, staff, and faculty regarding current

and future uses of inclusive learning practices and assistive technology for students with disabilities in the educational setting. Key Responsibilities

- Student Appointments:

- Create a safe, empathetic environment for students to identify, explore, and work towards their learning goals
- Assess students' assistive technology needs and eligibility for the Bursary for Students with Disabilities & the Canada Student Grant for Services and Equipment - Students with
- Disabilities (BSWD/CDG-DSE) by connecting with students about disability-related impacts and reviewing and interpreting medical documentation and psychoeducational assessment reports
- Consult and collaborate with team members in providing assistive technology recommendations
- Refer students to appropriate on-campus supports, as needed.

Program Delivery:

- Research, design and deliver inclusive and accessible workshops and programs to students with disabilities focused on guiding students through key aspects of their learning experience.

Technology Liaison:

- Contribute to maintaining an inventory of available assistive technology
- Stay current with emerging research, trends, and assistive technology relevant to the disabled student experience.

Qualifications To help us learn more about you, please provide a cover letter and resume describing how you meet the following required qualifications:

- Successful completion of a post-graduate Master's degree program in education or related field required with an emphasis on planning and implementing learning strategy skills and assistive technology support with students with disabilities
- A minimum of 2 years of relevant experience
- Strong understanding of inclusive and accessible communication practices
- Knowledge of disability and its impacts on learning and academic participation
- Experience with program planning and assessment is considered an asset
- Excellent oral and written communication and interpersonal skills
- Creative problem-solving skills, ability to manage competing priorities and deadlines, and work collaboratively
- Knowledge of specialized adaptive technology and available funding resources (e.g., BSWD/CSG-DSE, ADP, etc.)
- Excellent understanding of the complex learning needs of a diverse student population, including relevant campus resources, processes, and policies
- Demonstrated commitment to upholding the recommendations outlined in the Accessibility for Ontarians with Disabilities Act (AODA)
