

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

BC Ministry of Environment and Climate Change Strategy

Multiple Locations

Senior Environmental Impact Assessment Biologist

\$69,900.80 - \$79,791.25 annually plus 3.3% Temporary Market Adjustment

This position may be located, based on operational availability, in any Ministry of Environment office: Smithers, Prince George, Surrey, Nanaimo, Cranbrook, Nelson, Penticton, Victoria, Kamloops, or Williams Lake.

Are you a motivated individual with a passion for the environment This is a great opportunity to make an impact on the Province's environmental protection. Apply today to help make a difference.

The Senior Environmental Impact Assessment Biologist manages staff and financial resources for the environmental impact assessment section, and provides biological, chemical and other environmental impact assessment (EIA) support to legislated and other statutory decision makers for Environmental Management Act authorizations.

The Senior Environmental Impact Assessment Biologist oversees the design, implementation and assessment of water quality monitoring programs for EIA studies and provision of technical input on Environmental Assessment Act reviews. This position also develops site-specific water quality objectives, provides Regional Operations with impact assessment support for enforcement activities under the Environmental Management Act and Canada Fisheries Act, maintains knowledge of current research in the field, oversees junior staff, and administratively manages contracts.

Qualifications for this role include:

• Bachelor's degree in Biology, Environmental Studies or various multi-disciplinary resource management studies, or other related fields, and 5 years of related experience; OR

• Other relevant combinations of education and experience such as Master's degree in a related field, plus 3 years of related experience may be considered

Related experience must include:

• Experience managing complex and sensitive projects; (project proposals, budget management, implementation analysis and recommendations)

• Experience interpreting and applying environmental management legislation and policy

• Experience managing and conducting environmental monitoring, assessments and reporting

Professional Association:

• Registered Professional Biologist (RP Bio) in B.C. and in good standing with the College of Applied Biology or immediately eligible for membership within six months of employment.
