

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

A place with purpose. CBC/Radio-Canada has always been a highly regarded pioneer of media technology. Not just in Canada, but around the world. Today, we are transforming ourselves from a conventional radio and television broadcaster into a modern digital media company. Technology is the driving force. MTIS is the team making it happen.

Media Technology and Infrastructure Services (MTIS) brings together more than 900 world-class technology and infrastructure experts under a single component. Through partnerships, collaboration, expertise and experience, MTIS is helping deliver Canada's public broadcaster of the future. We make connections; between media content, systems, people and places. We are the space where ideas and actions meet. MTIS is composed of four sectors: Business Technology Solutions, Governance and Engineering, Production Solutions, and Real Estate Solutions.

Experience

Expertise we look for:

- Electronic technologies
- Knowledge of telecommunications/computing systems
- TV production and post production techniques
- Knowledge of on-air programming / satellite, terrestrial and IP transmission
- Application architecture, development, and coding
