

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Education
Languages	English	

Description

Within FEAS, we know that our representation of Indigenous students is very low and needs to be an area of focus. When it comes to accessing STEM careers, there is desire and interest in these subjects, however, the path in accessing these programs is not equitable and requires a grand shift to truly meet the needs of Indigenous students. We also know that many prospective students tend to self-select out of STEM fields in grades 6-10. Therefore we are looking to hire a part-time Indigenous Specialist to help us create an Indigenous Outreach Program. This program will be overseen by Nika Zolfaghari, Manager, Equity and Community Inclusion, and Minakshi Suri, Engineering Outreach Coordinator - both of whom have extensive knowledge and experience in designing and executing effective and engaging outreach programming. The Indigenous Specialist will work with our team to lead and create a curriculum that will allow Indigenous youth to explore STEM and its relation to Indigenous Ways of Knowing.
