

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Are you looking for the most exciting challenge with a rapidly growing corporation in Canada and the US Are you process-oriented and thrive in a fast-paced environment Do you live in the details and look for opportunities to improve processes and results
GN Corporations Inc. (GN) is an industry leader in manufacturing and assembly for the Oil and Gas, Automotive, Aerospace and Defense industries. GN manufactures quality products within its Canadian facility with its world class, advanced technology. GN is leading the way in Industry 4.0 with many data driven and integrated platforms.

The Integrated Management Systems Lead, under the direction of the QHSE Manager, will have a delegated authority and will primarily be responsible to ensure compliance with company policies and standards, effectively plan, coordinate, and manage quality assurance services for customer orders, company products and company certification to result in on-time delivery, product quality and cost-effective performance. This role will ensure outputs meet or exceed quality and safety standards, as well as customer requirements in accordance with GN's quality management system, quality procedures & work instructions. The QA Lead must also be diligent in the implementation of the GN's Integrated Management System.

INTERNATIONAL STANDARDS PROFICIENCY:

In addition to GN Corporations Inc. corporate requirements and recommended industry practices, the QA Lead must be knowledgeable in the following regulatory and international standards requirements:

AS9100D (Aerospace)
ISO 9001:2015 (Quality), I
ISO 45001:2018 (Health & Safety),
ISO 14001:2015 (Environmental)
Controlled Goods Program

Specific duties and responsibilities include the following:

Support and maintain the IMS (Integrated Management System) and assist in its implementation through applied leadership, skills and examples as directed by the QHSE Manager.

Develop, maintain, review, and revise appropriate and relevant quality documentation including policies, inspection and process procedures, and production packages

Establish standard practices as directed by the QHSE manager, to promote the company's quality assurance expectations.

Ensure compliance with company policies, standards and objectives for cost control, waste reduction, quality, safety, and environment.

Assist in resolving process and product quality issues, and recommend measures to continually improve productivity.

Participate in periodic evaluation of the effectiveness of the integrated management system

Participate in performing internal audits, preparing audit reports, and executing audit-related corrective actions as directed by the QHSE Manager

Assist the QHSE Manager in promoting awareness of GN's ISO Management Systems across all employee levels

Promote customer focus throughout the organization with emphasis on process approach and risk-based thinking.

Participate in Management Review Meetings

Assist the QHSE Manager in establishing and implementing IMS-related trainings for all employees, as per requirements of the ISO standards.

OTHER RESPONSIBILITIES INCLUDE:

Occupational Health and Safety - Understanding and applying the GN Corporations Inc. Health and Safety policy as well as being responsible for his/her own health and safety at work, to avoid adversely affecting the health and safety of others through any act or omission.

Industry Standards and Regulations - Being familiar with all relevant industry standards, recommended practices, and regulations. Monitoring self-compliance with company, industry and government requirements as well as promoting their acceptance in all aspects of GN's business-related activities.

Memberships - Maintaining memberships and participating in industry-related organizations to stay current with changes in Technology, and trends.

MINIMUM JOB QUALIFICATIONS

Technologist or Engineer with specific training and experience in Quality Assurance and Quality Control applications.

Must be eligible for APEGGA or ASET membership.

Experience with Microsoft Office Tools.

Strong interpersonal skills.

GN Corporations Inc. is a proud Alberta corporation, in operation for over 50 years headquartered at 2873 Kingsview Blvd SE, Airdrie, Alberta, T4A 0E1, Canada.

We will be expanding our operations in the coming year to include Texas, USA. GN boasts an incredible organization filled with operations from over 42 countries. We celebrate the strength of diversity and the incredible intelligence that makes up our workforce.

GN Offers:

\$101,340 - \$105,000 per year base salary

Company medical, dental, and vision plan;

RSP matching program;

Endless opportunities to take part in job related training and development.
