Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

At Lilly, we unite caring with discovery to make life better for people around the world. We are a global healthcare leader headquartered in Indianapolis, Indiana. Our 35,000 employees around the world work to discover and bring life-changing medicines to those who need them, improve the understanding and management of disease, and give back to our communities through philanthropy and volunteerism. We give our best effort to our work, and we put people first. We're looking for people who are determined to make life better for people around the world.

At Lilly, we unite caring with discovery to make life better for people around the world. We are a global healthcare leader headquartered in Indianapolis, Indiana. Our 35,000 employees around the world work to discover and bring life-changing medicines to those who need them, improve the understanding and management of disease, and give back to our communities through philanthropy and volunteerism. We give our best effort to our work, and we put people first. We're looking for people who are determined to make life better for people around the world.

Lilly is one of the top 10 largest pharmaceutical companies in the world. Lilly has remained dedicated to creating medicines that help improve peoples' quality of life for more than 135 years. At the heart of Lilly's operations are its core values - excellence, integrity and respect for people and these are reflected in business practices that include strong governance principles, the ethical development of medicines, transparency and ethical product promotion.

Responsibilities:

The MSL will serve as a scientific resource for Canadian experts in the field of Immunology| Dermatology and related disorders. The MSL is responsible for responding to requests for in depth, cutting edge scientific information from the medical community in the immunology field including the latest scientific literature, the latest research from major scientific conferences, updates on Lilly's educational activities and Lilly's pipeline research activities.

The MSL will also gather feedback and insight from Scientific Experts and Thought Leaders to better inform Lilly's research and overall strategic direction. By facilitating scientific exchange between the academic community and Lilly, the MSL has the opportunity to shape the future of healthcare with information that addresses important clinical and scientific questions.

In all interactions, the MSL has responsibility to ensure that activities are compliant with all applicable guidelines, Rules and Regulations for Conducting Research, IMC Code of Conduct, the Eli Lilly Canada Policy on the Promotion of Pharmaceutical Products and Ethical Interactions with Health Care Providers, and other prevailing regulations/codes that may pertain to their work in the future.

Objectives

Develop and maintain mutually beneficial, peer-to-peer relationships with the scientific community

The MSL will spend a significant amount of their time on customer-facing activities to develop relationships with external customers including scientific experts, researchers, educators and clinical investigators. The MSL will serve as a major representative of Lilly for these health care professionals, providing deep and advanced disease state and product information as well as facilitating the work of the scientific expert when it aligns with Lilly's mission. An important aspect of this work will be to connect thought leaders and scientific experts with other Lilly resources (e.g., Discovery, Real World Evidence Scientists, Clinical Research Physicians and Global/Canadian External Research & Development). Effectively communicate with Scientific Experts and Thought Leaders with up to date scientific knowledge and provide services that meet their needs.

The MSL will be considered a reliable, trusted resource of accurate, up-to-date medical and scientific knowledge requested and desired by their customers. They will respond in a timely way to personal or electronic inquiries with any available information which may include reprints or posters, medical letters, literature citations, access to internal and external experts, slides and other teaching-related material.
Continually enhance scientific knowledgeiate
The MSL is required to maintain technical expertise within a therapeutic area to engage in scientific discussions with scientific experts. The MSL will be expected to engage in continuous learning within the therapeutic area they represent. They will attend appropriate scientific meetings, conduct routine literature searches and will be expected to communicate regularly with each other to assure that the entire group benefits from individual learning whenever it is relevant.
Support the affiliate medical business objectives and cross functional partner
The MSL will be responsible for interfacing the scientific expert and Lilly resources/internal business partners such as Clinical Research Physicians, Medical Information Associates, Medical Education, Corporate Affairs, and Marketing as requested by the expert. They will also report the clinical insights and unanswered customer questions they have received from the scientific experts to the medical and brand teams. The MSL job entails not only scientific and customer expertise, but also requires the ability to understand and effectively utilize approved resources to fulfill administrative, procedural, and legal requirements in order to address the customer needs and support internal Lilly business.
Basic Requirements: Education and Experience
Bilingual
Advanced degree in health sciences (PhD, MD, Pharm D) with 2-3 years of relevant clinical or therapeutic experience in Immunology.
OR MSc in health care/professional designation (BScN, PT, RD etc.) considered if 5 or more years of relevant clinical experience in Immunology.
OR previous MSL experience and sound knowledge of the pharmaceutical industry
Additional Skills/Preferences
- Intellectual curiosity and intelligence about the field of Immunology
- Ability to critically appraise scientific information / literature
- Strong presentation skills including the ability to comprehend large amounts of scientific content, which is then communicated in a clear, concise fashion
- Demonstrated ability to build strong/collaborative peer-to-peer relationships with external customers
Familiarity with the academic community and medical research
- Significant direct experience in servicing customer needs for complex information
- Experience in professional networking with positive mutually beneficial outcome
- Strong teamwork and interpersonal skills including an ability to work effectively with internal colleagues and cross-functional team member
- Strong project management skills with an ability to work within teams to prioritize key projects and medical tactics
- Previous Medical Science Liaison experience
- Significant clinical or research work in the areas of Immunology
Coverage territory: Quebec & Atlantic Canada
Additional Information
Eli Lilly Canada is committed to employment equity. We encourage applications from qualified women, members of visible minorities, aboriginal peoples, and persons with disabilities.
Eli Lilly and Company, Lilly USA, LLC and our wholly owned subsidiaries (collectively "Lilly") are committed to help individuals with disabilities to participate in the workforce and ensure equal opportunity to compete for jobs. If you require an accommodation to submit a resume for positions at Lilly, please email Lilly Human Resources (Lilly_Recruiting_Compliance@lists.lilly.com) for further assistance. Lilly does not discriminate on the basis of age, race, color, religion, gender, sexual orientation, gender identity, gender expression, national origin, protected veteran status, disability or any other legally protected status.
All new employees are required to be fully vaccinated against COVID-19 as a condition of being hired by Lilly as described Lilly's Covid-19 Vaccination Policy. The requirement to be vaccinated is inclusive of any approved boosters,

should they be deemed necessary in the future. Deadlines for boosters will be communicated through an updated policy as needed.

Responsabilites

L'agent(e) de liaison des sciences medicales (ALSM) est une ressource scientifique pour les experts canadiens dans le domaine de l'immunologie (rhumatologie et/ou dermatologie) et des maladies connexes. Il incombe a l'ALSM de repondre de facon detaillee aux demandes de renseignements scientifiques de pointe de la part de la communaute medicale dans le domaine de l'immunologie - documentation scientifique la plus recente, resultats de recherches emanant d'importantes conferences scientifiques, mises a jour sur les activites de formation de Lilly et activites de recherche concernant la gamme de produits en developpement de Lilly.

L'ALSM recueille egalement les commentaires et les reflexions des experts scientifiques et des leaders d'opinion afin de mieux etayer les recherches de Lilly et de definir l'orientation strategique globale de l'entreprise. En facilitant les echanges scientifiques entre le milieu universitaire et Lilly, l'ALSM est a meme de faconner l'avenir des soins de sante a l'aide de renseignements touchant d'importantes questions cliniques et scientifiques.

Dans toutes ses interactions, l'ALSM s'assure que les activites sont conformes aux lignes directrices, regles et reglements entourant la recherche en vigueur, au Code de conduite de Medicaments novateurs Canada (MNC), a la politique d'Eli Lilly Canada sur la promotion des produits pharmaceutiques et aux interactions ethiques avec les professionnels de la sante, et a tout autre reglement ou code en vigueur qui pourrait toucher son travail a l'avenir.

Objectifs

Etablir et maintenir des relations mutuellement avantageuses entre pairs avec la communaute scientifique.

L'ALSM consacre la majeure partie de son temps a des activites de contact avec les clients afin d'etablir des relations avec les clients externes, dont les experts scientifiques, les chercheurs, les formateurs et les chercheurs cliniques.

L'ALSM agit a titre de representant principal de Lilly aupres de ces professionnels de la sante, en fournissant de l'information approfondie et exhaustive sur differents etats pathologiques et produits, et en facilitant le travail des experts scientifiques conformement a la mission de Lilly. Un aspect important de ce mandat est d'etablir des liens entre les leaders d'opinion et les experts scientifiques et les autres ressources de Lilly (p. ex., scientifiques ayant fait des decouvertes ou obtenu des donnees probantes en situation reelle, medecins en recherche clinique et membres de la Division de recherche et developpement au Canada et a l'international).

Communiquer efficacement avec les experts scientifiques et les leaders d'opinion, leur transmettre des connaissances scientifiques a jour et fournir des services qui repondent a leurs besoins.

L'ALSM est considere comme une ressource fiable et de confiance a meme de fournir des renseignements medicaux et scientifiques exacts et recents aux clients. Il peut repondre sans tarder aux demandes de vive voix et electroniques de maniere a fournir toute l'information disponible, qui pourrait comprendre des tires a part ou des affiches, des lettres medicales, des citations tirees de la documentation, des diapositives, l'acces a des experts internes et externes, et autres materiels de formation.

Etendre continuellement les connaissances scientifiques.

L'ALSM est tenu de maintenir une expertise technique dans un domaine therapeutique donne pour participer a des discussions scientifiques avec les experts scientifiques. Il est attendu de l'ALSM qu'il participe a des activites de formation continue liees au domaine therapeutique dont il est le specialiste. Il doit participer a des reunions scientifiques pertinentes, effectuer de la recherche documentaire et communiquer de facon reguliere avec ses collegues afin de s'assurer que chacun peut beneficier des apprentissages individuels, lorsque cela s'avere pertinent.

Soutenir les objectifs operationnels medicaux de la societe affiliee ainsi que les partenaires interfonctionnels.

L'ALSM sert de point de contact entre les experts scientifiques et les ressources/partenaires d'affaires internes de Lilly, notamment les medecins en recherche clinique, les associes du Service de l'information medicale et les employes du Service d'education medicale, de la Division des affaires de l'entreprise et du Service du marketing, selon les demandes des experts. L'ALSM fournit egalement a l'equipe des Affaires medicales et aux equipes de marques les renseignements cliniques et les questions des experts scientifiques demeurees sans reponse. Le travail de l'ALSM necessite non seulement une expertise scientifique et en matiere de service a la clientele, mais aussi la capacite de comprendre et d'utiliser efficacement des ressources approuvees et necessaires pour repondre aux besoins des clients et appuyer les activites internes de Lilly dans le respect d'exigences administratives, procedurales et juridiques.

Exigences de base : Etudes et experience
