

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company United Rentals

Location Calgary, AB

Date Posted From: 2020-09-11 To: 2050-01-01

Job Type: Full-time Category: Transportation

Description

As an Analyst, IT Business at United Rentals, you will be responsible for assisting with the facilitation and integration of business processes within a fast paced technology environment. You'll interact with the business stakeholders and subject matter experts in order to understand their problems and needs. You'll solve business problems and, as needed, design technical solutions. You will also evaluate and test new or modified software programs and software development procedures used to verify that programs function according to user requirements and conform to establishment guidelines. If you would enjoy the chance to make your mark with the world's largest equipment rental provider, consider a future with United Rentals. We'll provide the tools, the technology and the support you need to do the job right. You will also be supported by a strong management team that will help you achieve your goals. Additional duties include the following: *

- Manage on-going expansion and IT improvement processes for assigned businesses
- * Accountable for providing leadership and independent initiatives in facilitating and conducting information gathering structured documentation and presentation of findings
- * Liaise with internal customers and IT departments and follow up to completion on various programming and IT issues
- * Maintain current project notes and communicate information to business partners and developers
- * Work independently and collaboratively with developers in troubleshooting system failures and data discrepancies
- * Administer user acceptance testing for all new software developed providing final approval for project to be moved into production
- * Support internal and external Help Desk resources with unresolved questions from application users
- * Responsible for accurate and detailed SDLC documentation including functional requirements, test plans and test scripts
- * Perform ongoing documentation of enhancements to applications
- * Other duties assigned as needed

* Bachelors degree or equivalent combination of education and experience required

* Solid working knowledge of mobile, ERP and Logistics systems and technologies

* Analytically oriented with strong documentation skills

* Strong interpersonal skills to interact with clients daily

* Experienced in relational database analysis with strong data query skills

* Experienced with Word, PowerPoint, Adobe, Excel

* Ability to distill information and articulate business needs to developers

* Understanding of relationships between theoretical information and data

What's in it for you Best in class benefits package which includes medical, dental & vision, 401(k) or RRSP, DPSP, paid time off, comprehensive training and development, and career growth opportunities. United Rentals, Inc.
