

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company	Suncor	
Location	Calgary, Alberta	
Date Posted	From: 2018-10-15	To: 2050-01-01
Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Calgary, Alberta (CA-AB)

JOB NUMBER: 25706

Job Overview Co-op positions at Suncor are more than just a work term. They provide you with meaningful and challenging work experiences to help enable you to determine where you want your career to go – better yet, many of our co-op students go on to become permanent Suncor employees after they graduate! You will work side-by-side with some of the most talented people in the energy industry, and your work assignments and mentoring will offer you extraordinary academic and career growth. In this position, you will provide your expertise in asset data management processes and other technologies to support development of enterprise wide asset information strategies and architecture.

Key Accountabilities

- Review asset data processes and technologies to identify gaps and help develop improve plans.
- Participate in the development of roadmaps that depict current and future technical data architectures
- Support our enterprise digital transformation strategy by assisting in the continuous improvement and sustainability of asset data lifecycle management processes and tools
- Provide input and support of technical asset information specifications, procedures and guidelines

Required Qualifications Experience and Education:

- Prior experience with data management and analysis is essential
- Currently enrolled in a formal diploma or degree that trains students on digital information tools such Geographical Information System (GIS) or Computer Assisted Drafting, and returning to full-time studies after the work term.
- Attach your transcripts with your application and clearly indicate the length of work term for which you are available

Skills and Knowledge:

- Deep understanding of AutoCAD or similar program
- You have proven, exceptional data processing knowledge including SQL and a familiarity with database modelling.
- Demonstrated ability to adherence to procedures: you don't take or tolerate shortcuts and if the procedure is incorrect, you help to fix it
- Continually seek knowledge and understanding: you strive to understand the systems, processes and hazards in and around the workplace and determine improvement opportunities

Working Conditions

- This is a 12-month work term, from January 2019 – December 2019
- This position is located in Calgary, Alberta at the Suncor Energy Centre

Why Suncor Start your career at Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn and grow in a variety of career-building positions. We live by the value of safety above all else – do it safely, or don't do it. Our strong track record of growth and a focus on sustainability mean tremendous potential for the future. Learn about our mission, vision and values. Stay connected to us:

- Follow us on LinkedIn, Facebook and Twitter for the latest job postings and news
- Join our Talent Community and sign up to receive customized job alerts
- Read our Suncor Connections newsletter to see what we're doing in the communities we live and

work in

We are an equal opportunity employer and encourage applications from all qualified individuals. We are committed to providing a diverse and inclusive work environment where every employee feels valued and respected. We will consider accessibility accommodations to applicants upon request. Please note that our job postings are typically open for or two weeks, so don't delay, apply now. JOB CATEGORY: Students & New Grads
